INTRODUCTION

This guide explains how to replace the optical disc drive in the Toshiba Satellite A660-ST3NX2X laptop.

TOOLS:

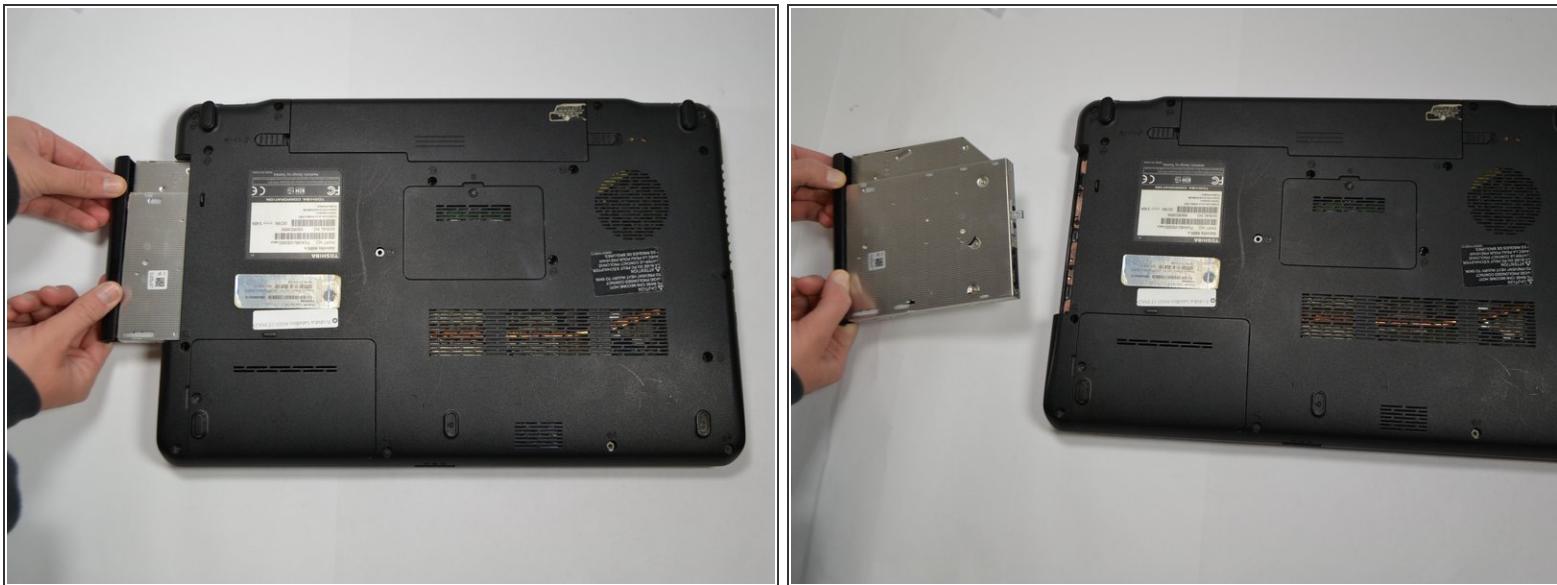

- Mako Driver Kit - 64 Precision Bits (1)

Step 1 — Optical Disc Drive

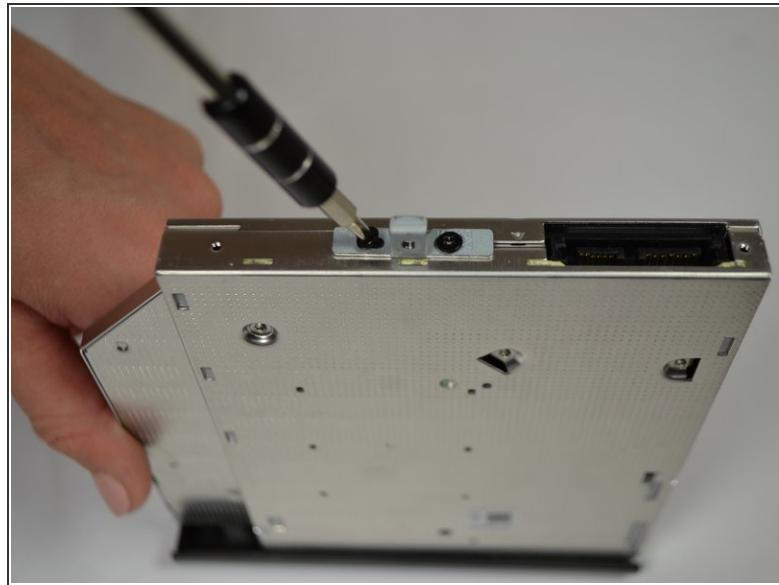

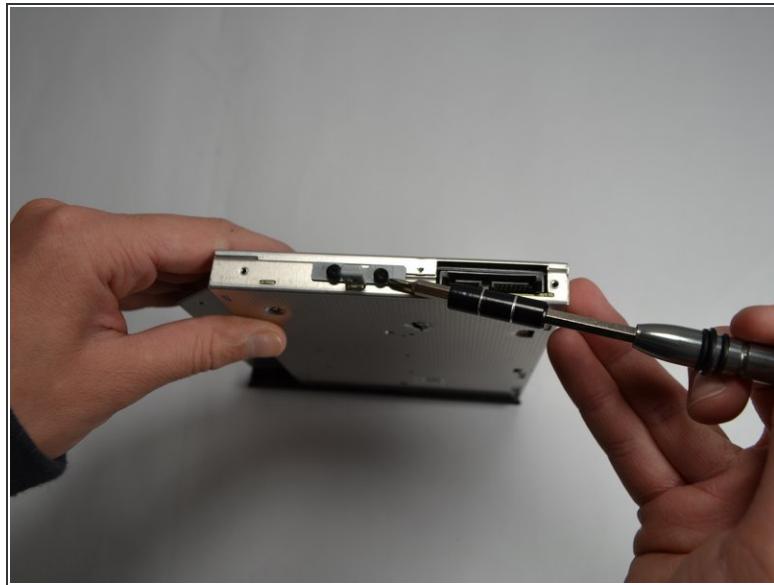

- Remove the 5mm Phillips screw from the bottom of the laptop.

Step 2

- Remove the optic disk drive from the computer.

Step 3

- Remove the two 4mm Phillips screws.
- Remove the rectangular metal plate.

To reassemble your device, follow these instructions in reverse order.
