 **TOOLS:**

- **Phillips #0 Screwdriver** (1)
- **Spudger** (1)

Step 1 — Battery

- Flip the laptop over so the bottom of the device is facing upward.

Step 2

- Unscrew the 10 5mm Phillips screws, located on the bottom side of the notebook using the PH1 bit and the Magnetic Driver.

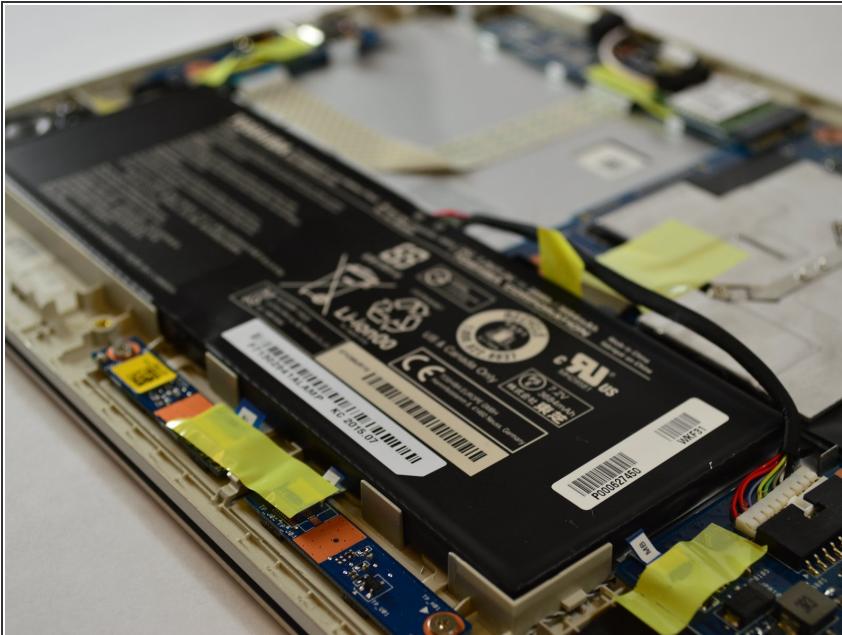

Step 3

- Pry open the bottom cover of the notebook with the plastic spudger tools. Slide a thin tool along the edges without ports to pop open the latches.

 Be careful not to bend or crack the plastic back cover.

Step 4

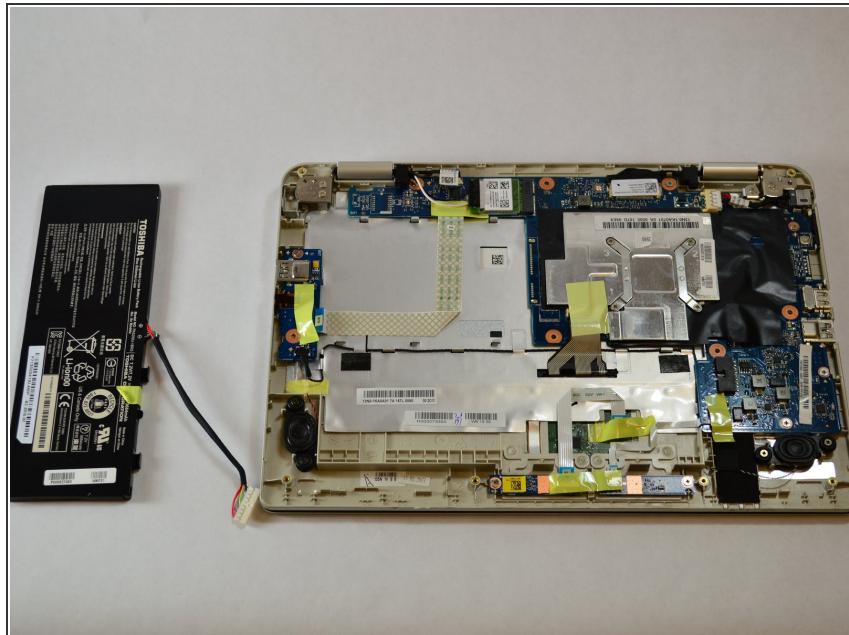

- Remove the 1" yellow tape on top of the battery. This piece of tape is holding down the battery connection cable.

Step 5

- Lightly grip the battery on the two longest sides. Gently pull up until the adhesive on the notebook is separated from the battery.

Step 6

- Carefully unplug the battery from the device motherboard.

Step 7 — Speaker

- Carefully unplug the speaker's cord from the I/O board.

Step 8

- Unscrew the two 3mm screws with the PH1 screw head on each speaker found on the corner's away from the hinges.

Step 9

- Remove the speakers.

To reassemble your device, follow these instructions in reverse order.
