

Toshiba Satellite L55-B5396 Back Panel Replacement

How to replace a Toshiba Satellite L55-B5396 back panel.

Written By: Johnny thapa

 **TOOLS:**

- Phillips #2 Screwdriver (1)
- iFixit Opening Tools (1)

Step 1 — Back Panel

- Use the iFixit opening tool to slowly pry the edge of the laptop open from both sides.

Step 2

- Here is a close up of where to insert the tool precisely.

Step 3

- This is how the laptop will look once the back panel is taken out.
