INTRODUCTION

For this replacement you will have remove the keyboard to get to the CD drive. Steps to remove the keyboard can be found in prerequisite guide at the top of the page. After the keyboard is remove then you are able to move on to the CD drive.

⚙ TOOLS:

- IFIXIT screwdriver with a PH0 bit (1)
- iFixit Opening Tools (1)

This document was generated on 2019-10-20 12:39:20 PM (MST).
Step 1 — Keyboard

- Place the laptop with the screen facing you and grab the opening tool.

- Insert it into the top corner of the keyboard and slide it to the right along the length of the keyboard.
 - *You will feel the popping sensation as it slides along.*

Step 2

- Lit up the left side of the small plastic bar at the top of the keyboard.

- (i) *Be careful when removing it, because you will need to apply a bit of force .*
