

Toshiba Satellite Radius P55W-B5220 Battery Replacement

This guide will explain how to remove the battery from the Toshiba Satellite Radius P55W-B5220.

Written By: Devin Boski

INTRODUCTION

The battery is the power source for your laptop. If defective, this guide will instruct you on how to remove and replace your battery.

TOOLS:

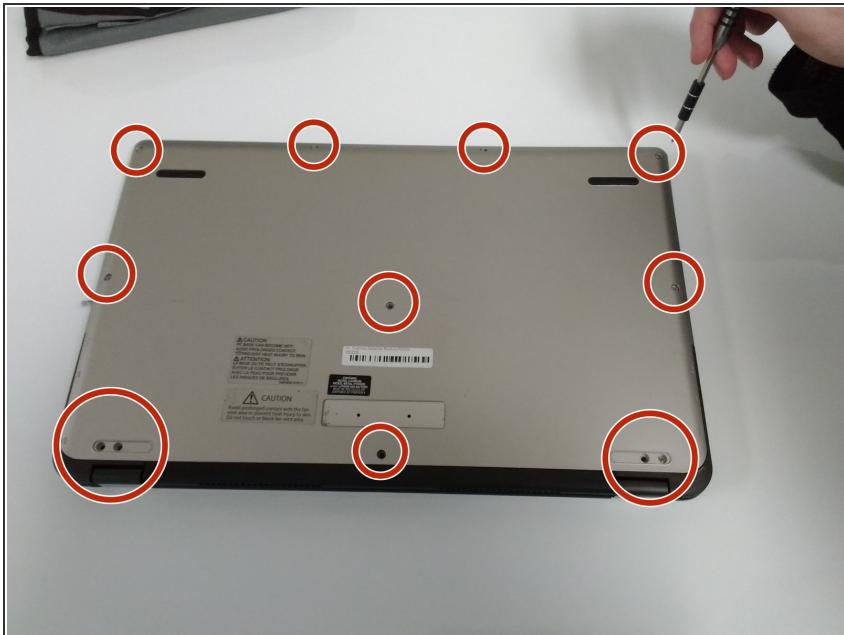

- [Phillips #0 Screwdriver \(1\)](#)
- [iFixit Opening Tools \(1\)](#)

Step 1 — Back Cover

- ➊ Turn off the laptop before starting.
- Remove the two rubber feet closest to the hinge with a plastic opening tool.

Step 2

- Remove the twelve M2x4mm PH0 Philips head screws.

Step 3

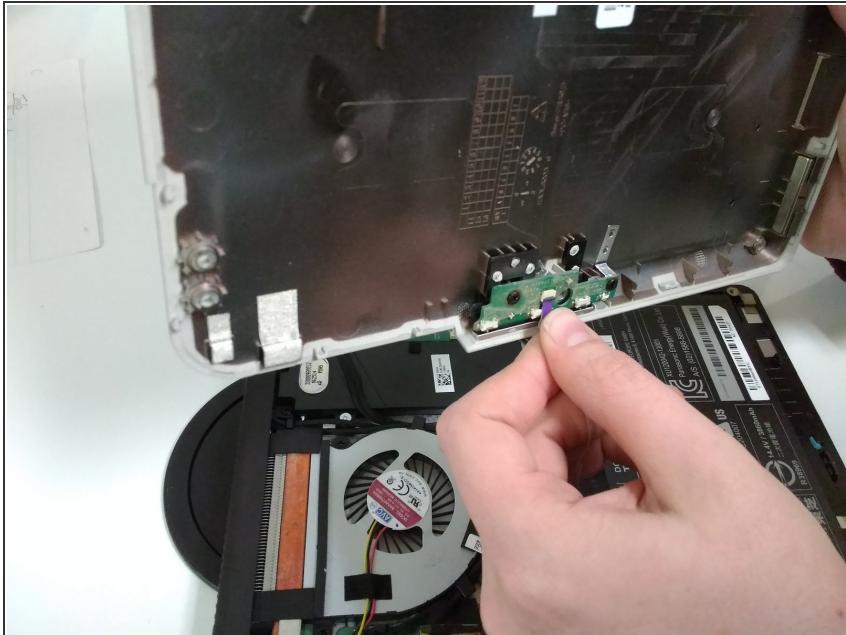

- Loosen the back cover with a plastic opening tool.

(i) The least damaging way to pry the cover is to start from a corner and run the spudger along the edge.

 Do not crack or bend the cover.

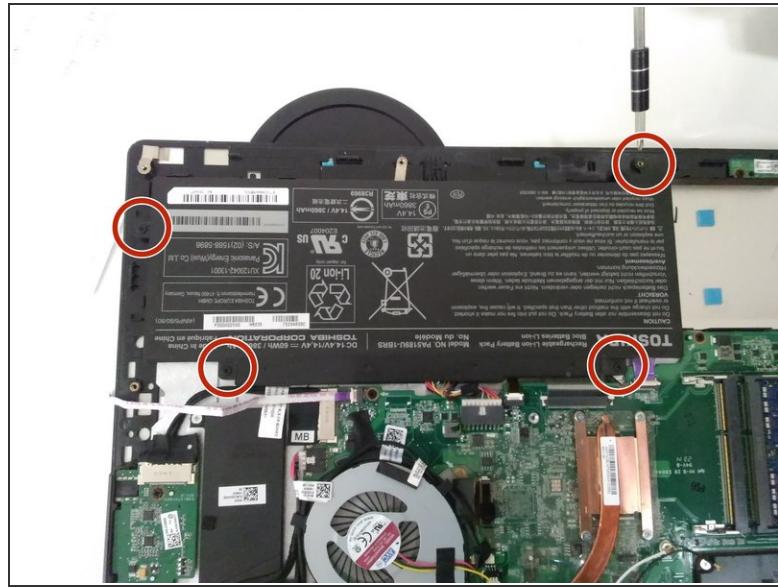

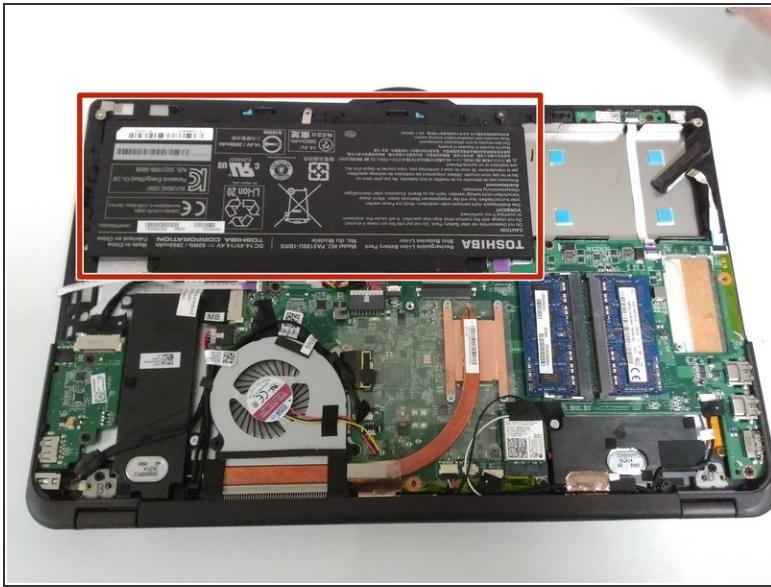

Step 4

- Carefully lift open the cover.
- Remove the attached purple ribbon cable underneath the cover.

 Do not rip the ribbon cable.

Step 5 — Battery

- Remove the four M2x2.5mm P0 Philips head screws.

Step 6

- Pinch the attached cables and carefully pull away to remove the battery.

To reassemble your device, follow these instructions in reverse order.
