# Toshiba Satellite U840W 12V Charging Port Replacement

This guide will walk you through how to replace your 12V charging port on your Toshiba Satellite U840W.
Written By: Joshua Pedersen

## INTRODUCTION

Removing this piece makes working inside of the computer easier. To replace this part (if it is broken) follow this guide.

---

## 🔧 TOOLS:

- Phillips #00 Screwdriver (1)
- iFixit Opening Tools (1)

---

## Step 1 — Toshiba Satellite U840W Disassembly Guide

- There are ten 5mm screws surrounding the edge of the cover.
- A rubber cap covers the eleventh 5mm screw (in the center).
- Remove the screws using a Phillips #00 screwdriver.

## Step 2

- Pry between the casing and cover using a plastic wedge tool.
- Use the wedge tool to move along the case & slowly pry it open.
- The wire for the 12v charging port connects the cover to the casing.

## Step 3

- Disconnect this connector from the motherboard to avoid damaging the motherboard or charging port cable.

## Step 4

- Disconnect the battery.

- Hold down the power button for ~10 seconds to discharge any stored electricity from the motherboard.

## Step 5

- At this point you should be able to:

- [Replace 12V Charging Port](#)

- [Replace RAM](#)

- [Replace Processor Fan](#)

- [Replace Speakers](#)
## Step 6 — 12V Charging Port

- Remove the connector from the motherboard.

- ⓘ This separates the only connection from the motherboard to the cover.

## Step 7

- Remove the screw holding 12v charging port to the cover.
