

Trek 820 Pedals Replacement

We will show you how to remove the pedals from your bike.

Written By: Kaveh Karimiyanha

TOOLS:

- [7/16" Wrench](#) (1)
-

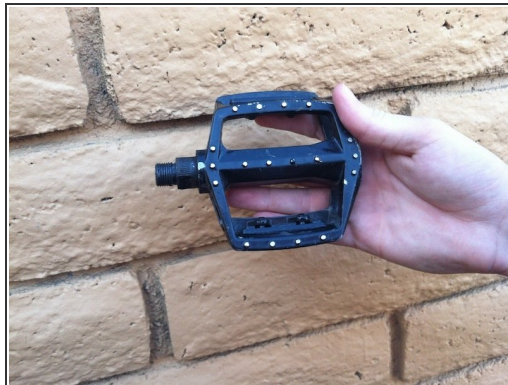

Step 1 — Pedals

✦ You will need the 7/16" wrench for this.

- Lock the wrench to the pedal and carefully unscrew it until the pedal comes off.

Step 2

- Once the old pedal is off, you may replace it with a new pedal.

To reassemble your device, follow these instructions in reverse order.
