INTRODUCTION

This guide will describe how to remove the back cover to your Trio STEALTH-9 and replace a new one in its place. This process should not take too long and will only require the removal of a few screws and a careful hand with the plastic shell.
TOOLS:

- iFixit Opening Tools (1)
- Phillips #00 Screwdriver (1)
- iFixit Opening Picks set of 6 (1)

PARTS:

- Trio STEALTH-9 Back Cover (1)

Step 1 — Back Cover

- Remove the two Phillips #00 screws on the side of the tablet.

Step 2

- Take one of the plastic opening tools and wedge it in the middle of the tablet, starting on the USB Port side.

- Holding the tool in place, take one of the 6 plastic opening picks and slide it across the opening you made with the opening tool.

Step 3

- Continue going around the tablet sides with the plastic pick, being sure that you are maintaining the openings you made with either your hand or the opening tool.

- ⓘ You will notice some popping as you go around with the pick. Don't worry, this is completely normal.

Step 4

- Remove the back cover of the tablet to reveal the internals.

- ⚲ To replace, pinch each of the ends together until all four sides are closed.

To reassemble your device, follow these instructions in reverse order with your replacement cover!
