

Turtle Beach Ear Force XO Four Ear Cushion Replacement

Replace damaged or torn ear cushions on the Turtle Beach Ear Force XO Four headset.

Written By: Evalyn Johnson

INTRODUCTION

The Turtle Beach Ear Force XO Four ear cushions are made of high-quality mesh with foam cushioning, but even these can sustain damage with sustained use or rough handling. To replace them, follow this guide.

TOOLS:

- [Jimmy](#) (1)
 - [Spudger](#) (1)
-

Step 1 — Ear Cushion

- Insert a flat metal object (such as iFixit's [Jimmy](#) tool) between the green and black plastic portions of the headset.

⚠ When working with electronics, it's important to choose a tool that's ESD-safe to avoid accidental damage to the device. The regular black nylon spudger or a plastic opening tool should be used whenever possible.

Step 2

- Carefully pry the plastic pieces apart, working your way around the ear cushion.

⚠ Be sure not to break the tabs on the back side of the ear pad!

Step 3

- Pull the loosened ear pad apart from the rest of the speaker.
- ☒ Pushing the pad and the speaker back together is the only step required for ear pad reassembly.

To reassemble your device, follow these instructions in reverse order.
