VTech Kidizoom Smartwatch DX2 Faceplate Replacement

Use this guide to replace the faceplate on your VTech Kidizoom Smartwatch DX2.

Written By: Jessica Richard

INTRODUCTION

If the faceplate to your watch is cracked or simply needs a clean, the following guide will show how to remove and replace this piece.

TOOLS:

- iFixit Opening Tools (1)

This document was generated on 2019-09-22 05:39:18 AM (MST).

Step 1 — Faceplate

- In order to remove the faceplate you must start by placing the watch screen upwards.

Step 2

- Use iFixit's opening tool, another similar tool, or simply use your fingernail to gently pry open the faceplate away from the screen starting from an edge.

- (i) You may hear a popping sound, but this is normal.

Step 3

- Once successful, pull the remaining faceplate off from the watch.

To reassemble your device, follow these instructions in reverse order.
