

# VTech Record and Learn KidiStudio Microphone Replacement

The guide demonstrates how to replace the microphone on the toy.

Written By: Shaina Carbonel

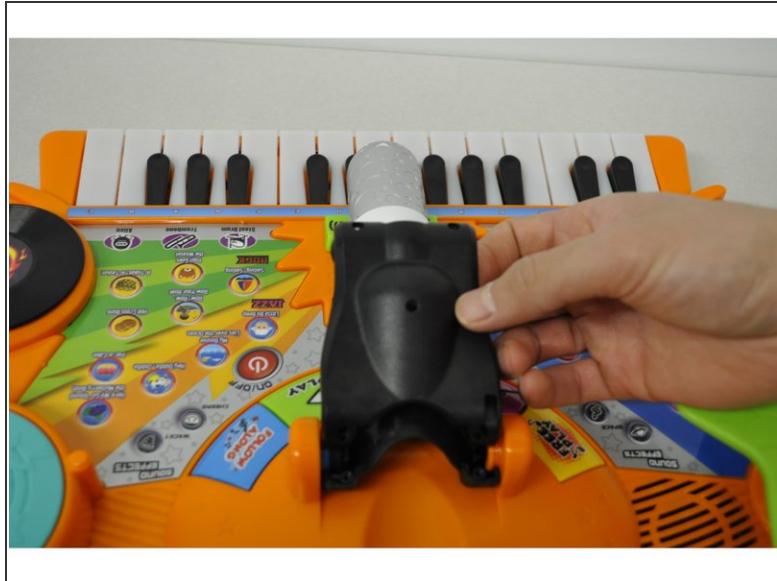

## INTRODUCTION

This guide will be helpful for someone interested in replacing the microphone on the 2014 Vtech Record and Learn KidiStudio.

### TOOLS:

- **Phillips #2 Screwdriver** (1)

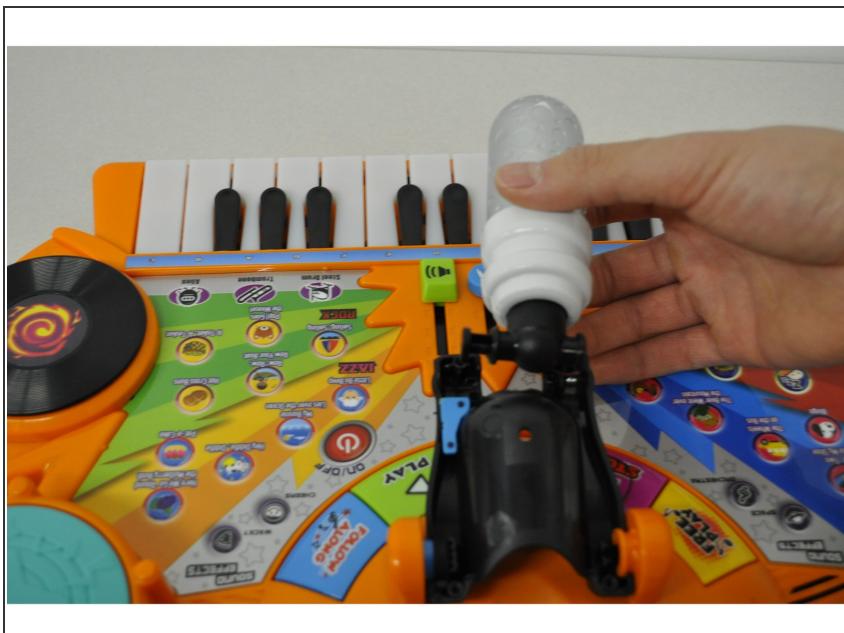

## Step 1 — Microphone

- Remove all four screws (7 mm) using PH2.
- Remove black microphone base cover from the device.

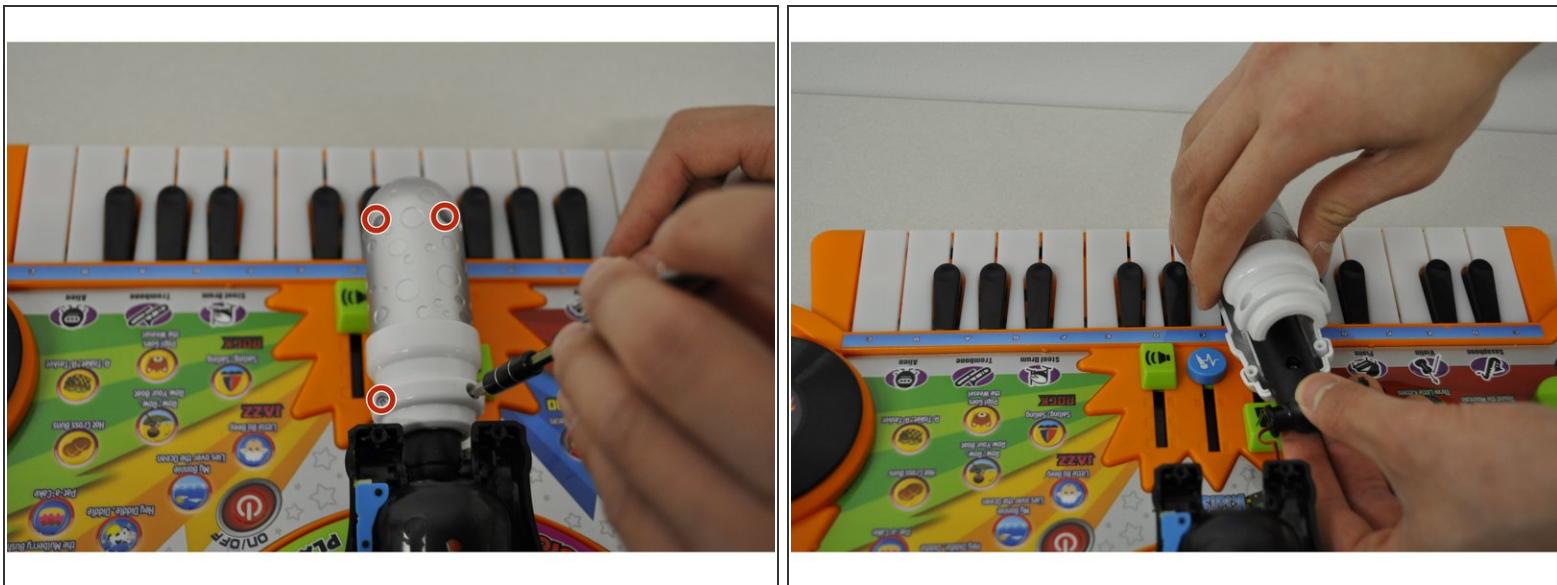

**⚠ Remove the batteries from the toy before beginning replacement of the microphone.**

## Step 2

- Remove the silver microphone component from the black base.

## Step 3

- Unscrew 4 PH2 screws (7 mm) from the silver microphone component.
- Open the silver microphone housing and remove the actual microphone from the device.

## Step 4

- Install new microphone in the device like shown.

To reassemble your device, follow these instructions in reverse order.
