

# VTech Record and Learn KidiStudio Whammy Bar Replacement

This guide shows how to replace the Whammy Bar on the Vtech Record and Learn KidiStudio.

Written By: Shaina Carbonel

## INTRODUCTION

This guide provides knowledge on how to replace the Whammy bar on the 2014 Vtech Record and Learn KidiStudio.

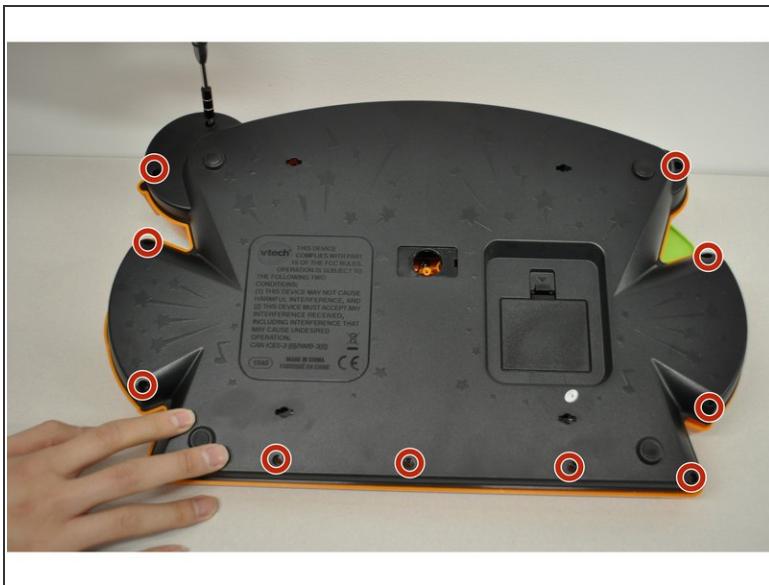

### **TOOLS:**

- Phillips #2 Screwdriver (1)

### **PARTS:**

- Whammy Bar Replacement (1)

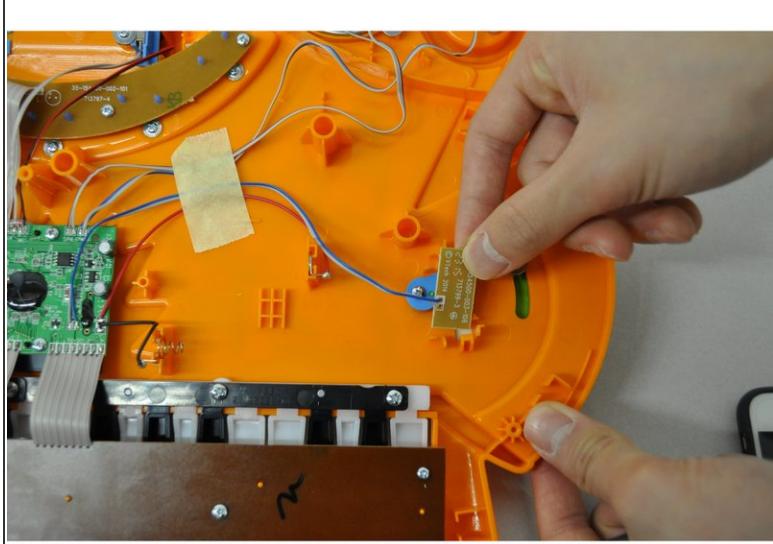

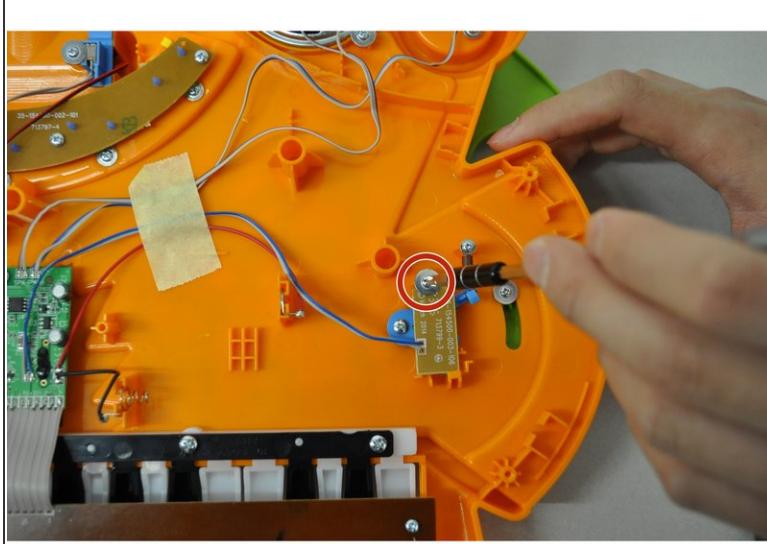

## Step 1 — Whammy Bar

- Unscrew 11 PH2 screws (7 mm).
- Remove black plastic backing.

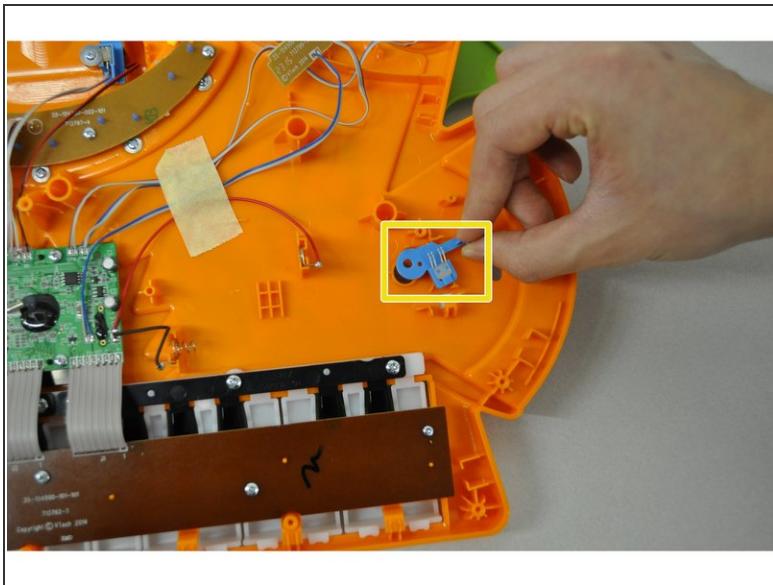

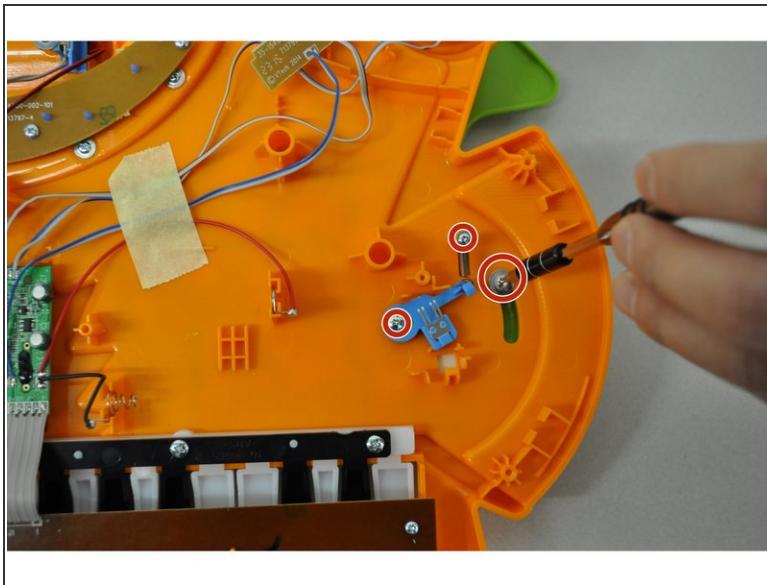

**⚠ Remove the batteries from the toy before beginning replacement of the whammy bar.**

## Step 2

- Remove PH2 screw (5 mm) from yellow/gold colored circuit board and pull back to access the whammy component.

## Step 3

- Remove 3 PH2 (5 mm) screws connected to the whammy bar component.
- Remove blue piece from back of the device. This will free the whammy bar. Replace the whammy bar with new part.
