

# Verizon Ellipsis 10 WiFi Module Replacement

How to remove and replace the Verizon Ellipsis 10 WiFi module.

Written By: Mary Duran

## INTRODUCTION

This guide is designed to show how to replace the WiFi module in the Verizon Ellipsis 10.

### TOOLS:

- [iFixit Opening Tools](#) (1)
- [Phillips #00 Screwdriver](#) (1)

## Step 1 — Back Cover

- Open the SD/SIM card cover to start prying off the back cover.

## Step 2

- Start using the iFixit Opening Tool in the SD/SIM area to release the clips holding the back panel on.

## Step 3

- Follow along the edge of the device to undo all of the retaining clips.

## Step 4

- Once all the clips are undone, the back panel should come off with little effort.

## Step 5 — WiFi Module

- Locate WiFi module in bottom right-hand corner.

## Step 6

- Unscrew the M1.5 screw using a Phillips #00 screwdriver.

## Step 7

- Using a pair of tweezers or needle nose pliers, pull up the connecting wire.
- Lift the module out.

To reassemble your device, follow these instructions in reverse order.
