

# Vulcan Venture II VNB14002IE Motherboard Replacement

Written By: Parish Brandt

## TOOLS:

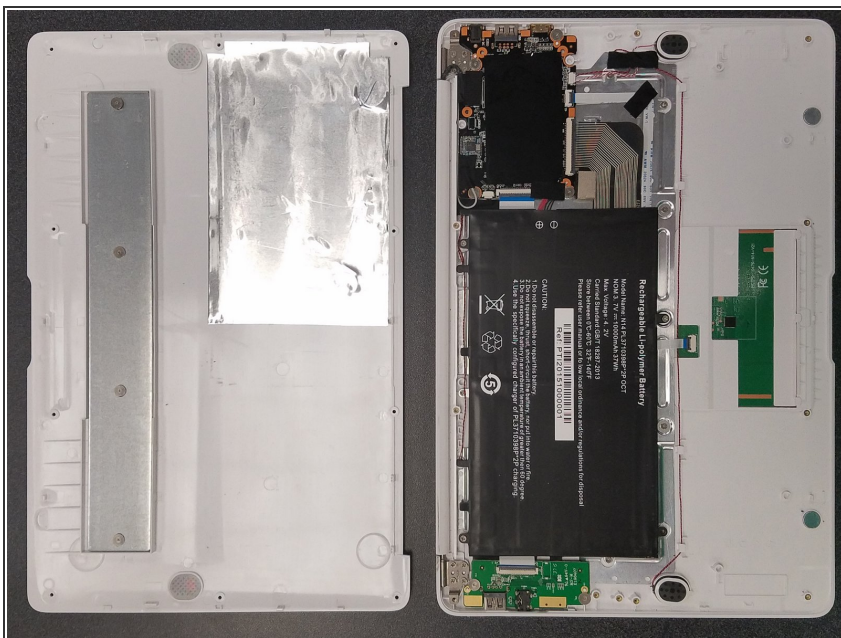

- [JIS #00 Screwdriver](#) (1)
  - [Spudger](#) (1)
-

## Step 1 — Back Panel

- Use a J00 screwdriver to unscrew the 10 back-plate screws.

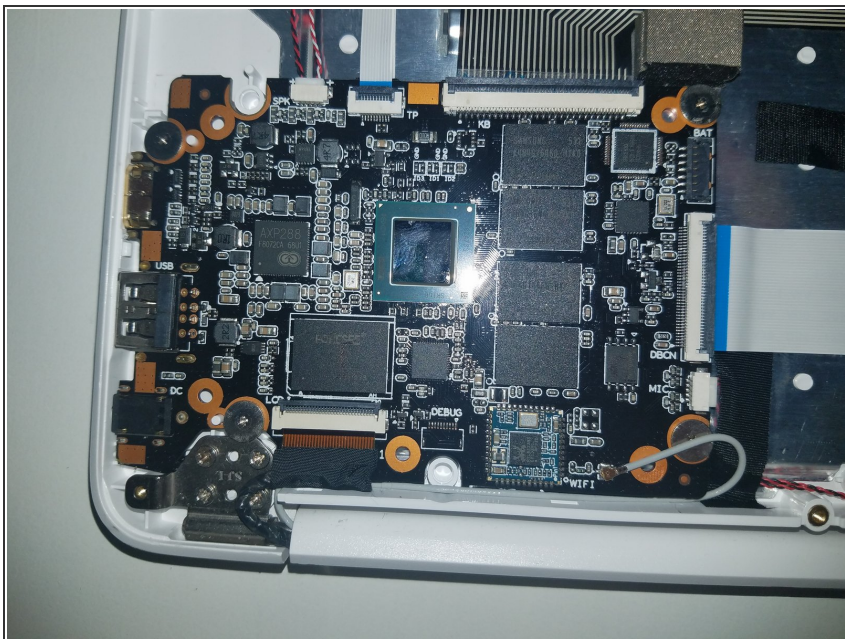

## Step 2

- Using light pressure, slowly wiggle off the back panel.

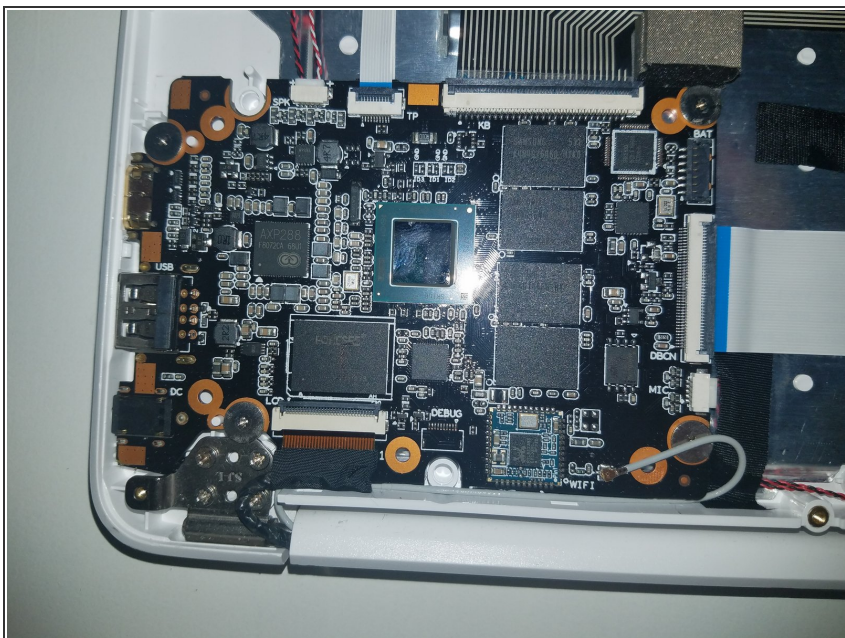

## Step 3 — Motherboard

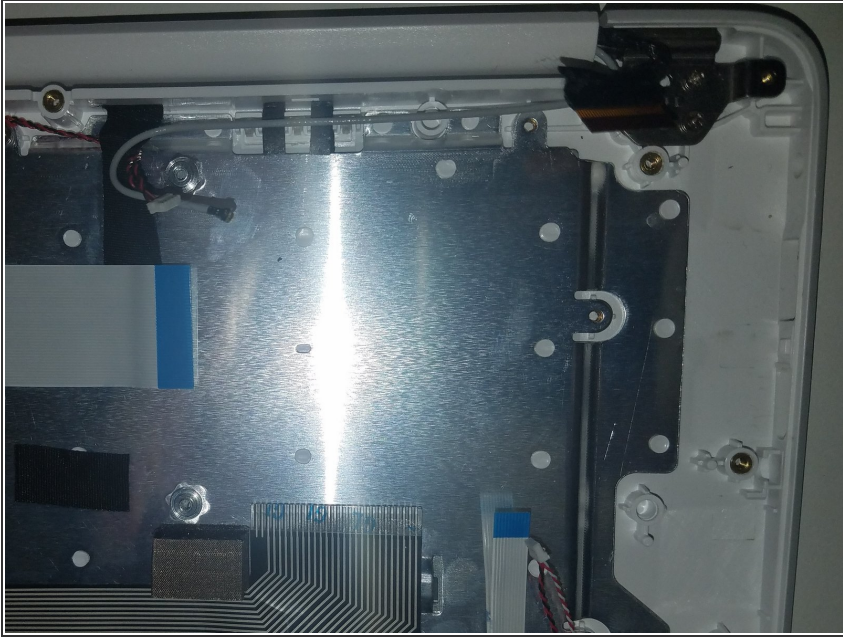

- For the ribbon pin cables, carefully lift up the black bar attached to the housing. Slowly slide the cable out once released.

## Step 4

- Use the J00 bit to remove the screw located in each of corners of the board.

## Step 5

- Once everything is removed properly, you should be able to lift the board out of it's housing, without any snags.

To reassemble your device, follow these instructions in reverse order.
