

Xiaomi Mi Mix 2 Fingerprint Sensor Replacement

This video shows you how to replace the broken fingerprint sensor of Xiaomi Mi Mix 2.

Written By: Witrigs

A black and white photograph of a Xiaomi Mi Mix 2 smartphone. The phone is shown from a three-quarter perspective, highlighting its thin profile and the large, curved screen. The screen displays a vibrant, abstract colorful wallpaper with swirling patterns in shades of orange, red, and yellow. The top edge of the phone shows the speaker grille and the '816' model number. The bottom edge features the standard Android navigation buttons (back, home, and recent apps).
