

# ZTE Blade E Battery Replacement

This guide will accomplish the necessary tools of replacing a worn out battery.

Written By: Alan Toussaint

 **TOOLS:**

- [Spudger \(1\)](#)

## Step 1 — Removing the cover

- Take a spudger and remove the back panel.

## Step 2 — Removal

- Carefully remove the battery with a spudger.

## Step 3 — New battery

- Take the new battery and place it into the slot. The phone should operate normally.

To reassemble your device, follow these instructions in reverse order.
