

# ZTE Blade E Volume Button Replacement

This guide shows how to replace the volume buttons, located on the left side of the phone.

Written By: Sean Gardner

 **TOOLS:**

- **Spudger** (1)
- **Phillips #00 Screwdriver** (1)
- **Tweezers** (1)

## Step 1 — Remove back panel from phone

- Using your finger nails or a spudger, remove the back panel from the phone.

## Step 2 — Remove battery and microSD card

- Using your fingernails or a spudger, remove the phones battery and microSD card.

## Step 3 — Remove back panel screws

- Remove the five 4mm Phillip's #00 screws, circled in red, from the back panel.

## Step 4 — Separate back panel from motherboard

- Separate the back panel from the motherboard.

## Step 5 — Remove volume button

- Using a pair of tweezers, remove the volume button by unlatching the two white bands holding it in place.

## Step 6 — Replace volume button

- Either replace the volume button with a new one, or reinsert the old one using a pair of tweezers. It should look like the pictures when inserted properly.

To reassemble your device, follow these instructions in reverse order.
