Step 2

- After the phone is heated, use the blue plastic opening tool on both sides of the phone.

⚠ Don't apply too much pressure because the cover can crack easily.

- (i)* To avoid that your cover cracks, you can add tape to back cover.
- (i)* You can use a suction cup to help remove the battery.

Step 3

- Carefully remove the cover from the phone.

To reassemble your device, follow these instructions in reverse order.
