

ZTE Lever Power Button Replacement

A free repair guide on how to replace the power button on a ZTE Lever smart phone.

Written By: Michael Gonzalez

INTRODUCTION

Follow this replacement guide to replace the power button on a ZTE Lever smartphone.

TOOLS:

- [iFixit Opening Tools](#) (1)
- [Phillips #0 Screwdriver](#) (1)
- [iFixit Pro Tech Toolkit](#) (1)

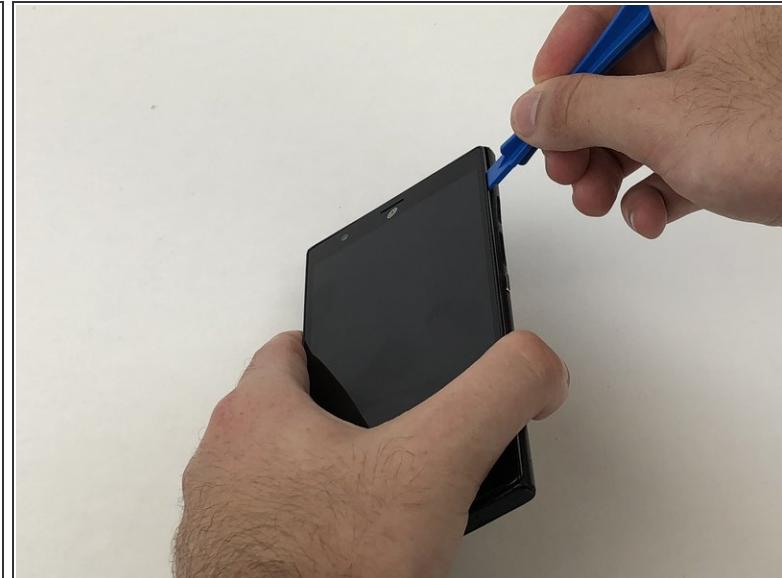

Step 1 — Battery

- Remove the SD card and the Sim card from the device.

(i) The Sim and SD cards are not shown here as our device did not come with them.

Step 2

- Use an iFixit opening tool to separate the back from the device.

Step 3

- Remove the two 1.6mm Phillips #0 screws from the battery plug cover.
- Remove the cover.

Step 4

- Disconnect the battery cable from the motherboard with a plastic opening tool.

Step 5

- Use your hands, or a plastic opening tool, to pry the battery from the phone.

Step 6 — Volume Buttons

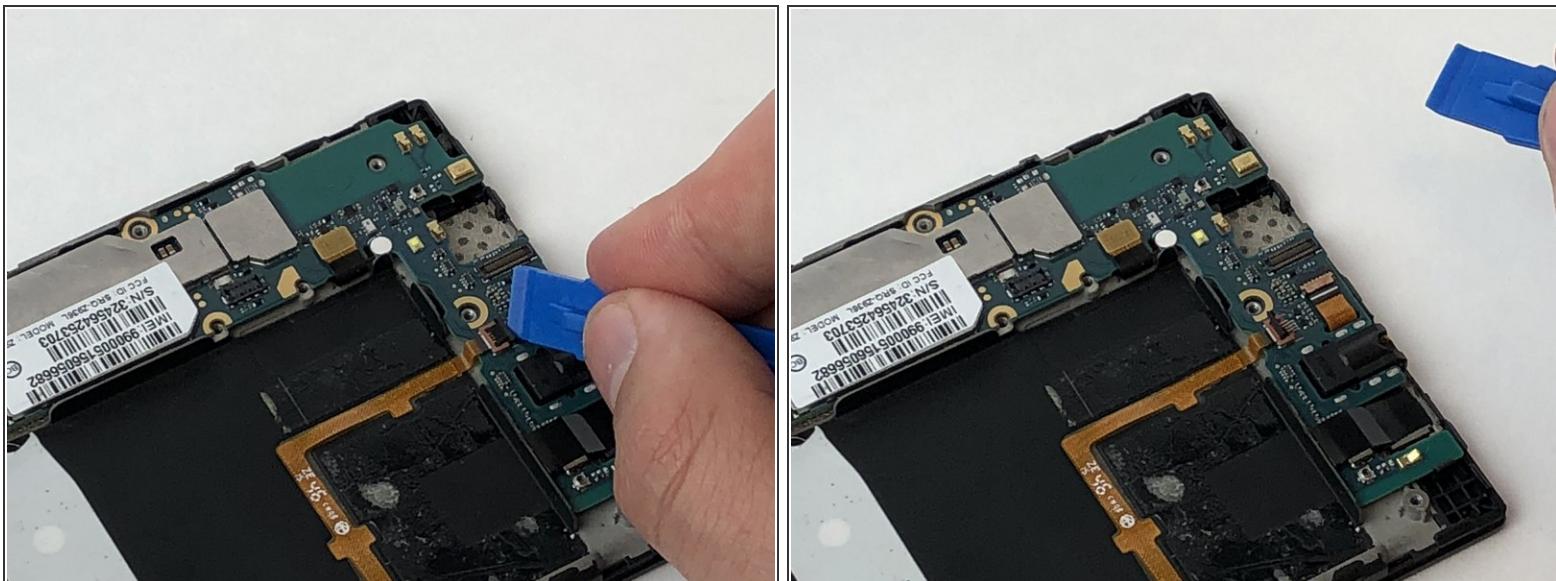

- Remove the three 1.6mm Phillips #0 screws from the plastic cover on the motherboard.

Step 7

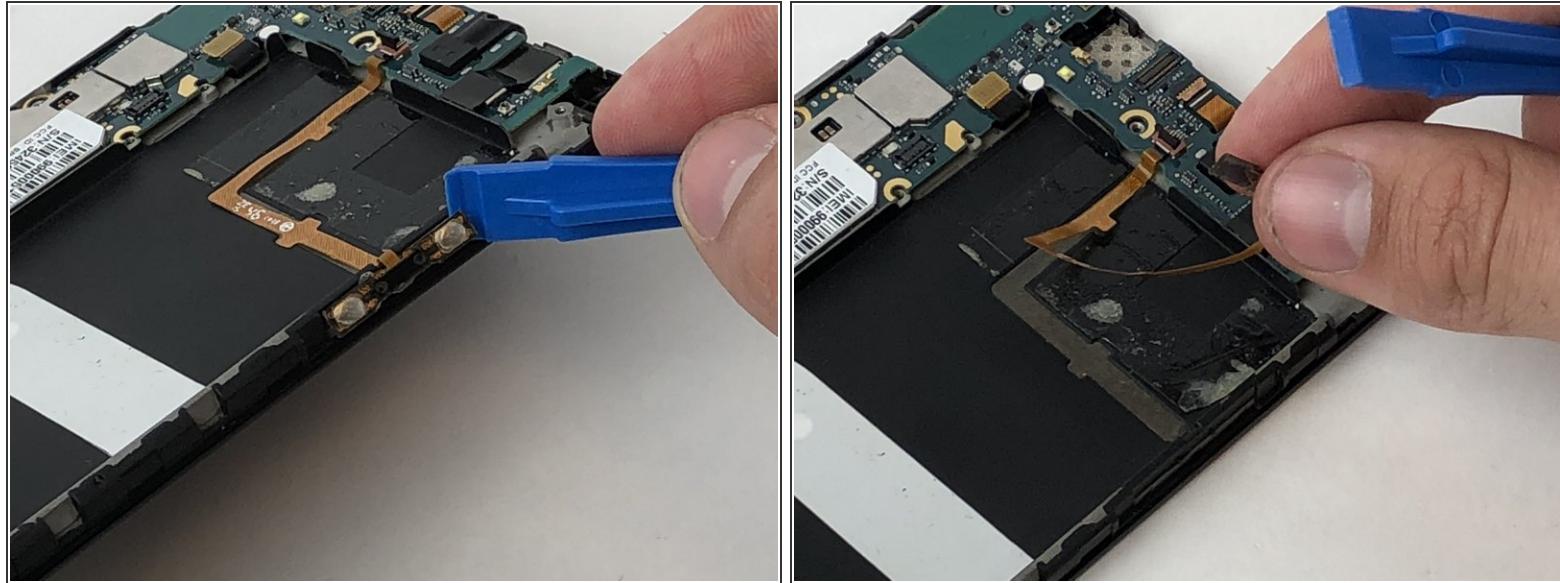

- Remove the top plastic motherboard cover using a plastic opening tool.

Step 8

- Use a plastic opening tool to flip up the retaining flap on the volume ribbon cable [ZIF](#) socket.

Step 9

- Peel up the volume button cable from the phone with hands, or plastic opening tool.

Step 10 — Power Button

- Disconnect the power button from the motherboard with a plastic opening tool.

Step 11

- Peel the power button cable up from the phone with you hands, or a plastic opening tool.

To reassemble your device, follow these instructions in reverse order.
