INTRODUCTION

The speaker has no sound. This guide will help to replace the speaker.

🔧 TOOLS:

- iFixit Opening Tools (1)
- Tweezers (1)
- Phillips #0 Screwdriver (1)

Step 1 — Battery
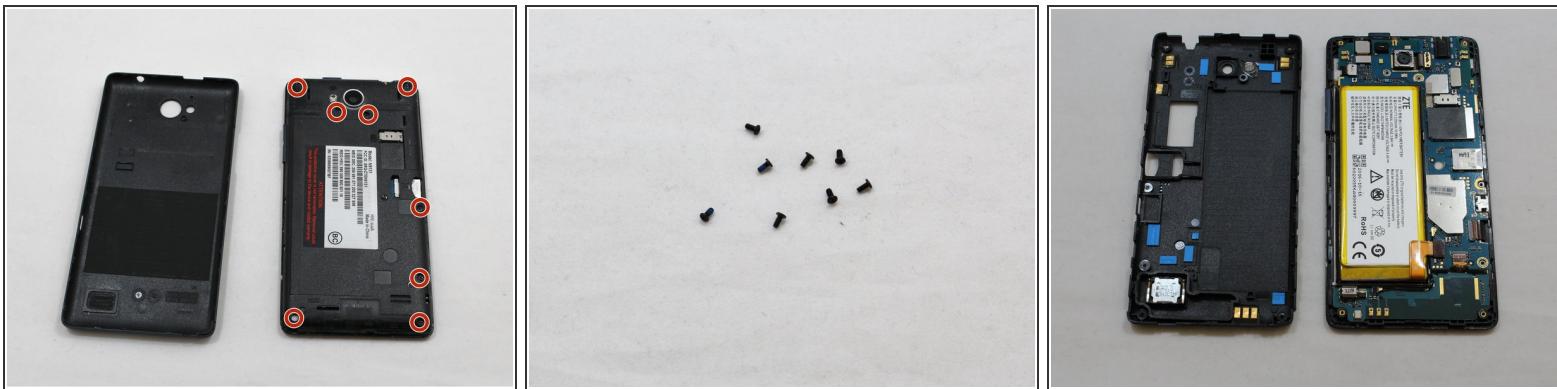

- Pry open the back case to get to the back cover.

- Remove eight 5mm screws with a PH0 screwdriver.

- Pry open the back cover with a plastic opening tool.

- Slide the plastic opening tool alongside the side seam twisting your hand forcefully to open the back cover.

- (i) Pry open by finding an edge and forcing it open with the plastic opening tool.

Step 2

- Use a plastic opening tool to lift the press-fit connector up and disconnect the battery ribbon cable.

- Lift the battery up and remove it from the phone.
