# bObi Robotic Vacuum Screen Replacement

The step-by-step guide for removing bObi's cover and screen.

Written By: Chelsea

# INTRODUCTION
The step-by-step guide for removing bObi's cover and screen. For help putting bObi back together, refer to: [Closing bObi's Cover Post-Repair](#)
## 🔧 TOOLS:

- [Phillips #2 Screwdriver](#) (1)

This document was generated on 2019-09-20 01:18:23 PM (MST).
## Step 1 — Top Cover

- Remove bObi's front wheel to access one of the screws holding bObi together.

- (i) Make sure the wheel is turned closer to bObi's front touch sensors. Use your screwdriver for leverage, and the wheel will pop up and out.

- Uninstall the larger screw that sits deeper in the wheel compartment.
## Step 2

- Remove bObi's dustbin.

- Uninstall the 2 screws close to the bin and 2 smaller screws above her main brushes.
## Step 3

- Lift the brush holder. To detach completely, unplug it from bObi.

- Remove the two screws on the dustbin contact point holder inside bObi.

- There are 4 screws beneath the main brushes. Uninstall these, and open bObi up to expose her main circuit board.
## Step 4

- Detach the two circuit plugs connecting bObi's cover to the main board and the cover will be completely removed.

## Step 5 — Screen

- Remove the four screws that secure bObi's screen and lift the whole piece out.

- Put the replacement screen in the open space.

## Step 6

- Re-install all four screws.

- For a tutorial on closing bObi, see: Closing bObi's Cover Post-Repair
