

# iLive IKBC384S Power cord and connector Replacement

iLive IKBC384S Power cord and connector Replacement.

Written By: Allen Dover

## INTRODUCTION

You will be replacing the AC power connector and cord in the device to make sure you will have power to the device.

### TOOLS:

- [iOpener](#) (1)
- [iFixit Opening Tools](#) (1)
- [Phillips #00 Screwdriver](#) (1)

## Step 1 — Top Cover

- Make sure you remove all seven 3 mm screws before proceeding to the next step.

## Step 2

- Use iOpener or heat gun on all sides except the front.

## Step 3

- Be cautious when taking the top of the device off there may still be some adhesive stuck to device.

 The top of the device will be very difficult to remove because of the adhesive holding it together.

## Step 4 — Power cord and AC connector

- Remove the one (13.5mm in length) screw holding the power connector and cord in place.

## Step 5

- Remove the power cord connected to the motherboard.

To reassemble your device, follow these instructions in reverse order.
