

iMac Intel 21.5" Retina 4K Display SATA Data and Power Cables Replacement

Prerequisite for disconnecting the SATA cables from the logic board.

Written By: Evan Noronha

INTRODUCTION

Prereq only for stripping down the logic board.

Step 1 — SATA Data and Power Cables

ⓘ The SATA data connector has a clip that must be pressed to allow removal.

- While pressing on the clip with your thumb, lift and disconnect the SATA data connector from its socket on the logic board.

Step 2

- Grasp the hard drive power connector and gently pull it out of its socket on the logic board.

To reassemble your device, follow these instructions in reverse order.
