

# iPad 3 4G Front Panel Assembly Replacement

Prep for removing the front panel. Specific to the iPad 3, also involves moving the LCD over.

Written By: Brett Hartt

 **TOOLS:**

- [Phillips #00 Screwdriver](#) (1)
- [Spudger](#) (1)

## Step 1 — Front Panel Assembly

- Remove the four 2 mm Phillips #00 screws securing the LCD to the aluminum frame.

## Step 2

- Using a plastic opening tool or a spudger, lift the right edge of the LCD out of the iPad.
- Rotate the LCD along its left edge and lay it down on top of the front panel.

**⚠️** Be careful as you move the LCD. The ribbon cable is fragile and may break if it is flexed too much.

To reassemble your device, follow these instructions in reverse order.
