

# iPad Air LTE Upper Component Cable Bracket Replacement

Written By: Andrew Optimus Goldheart

---

# INTRODUCTION

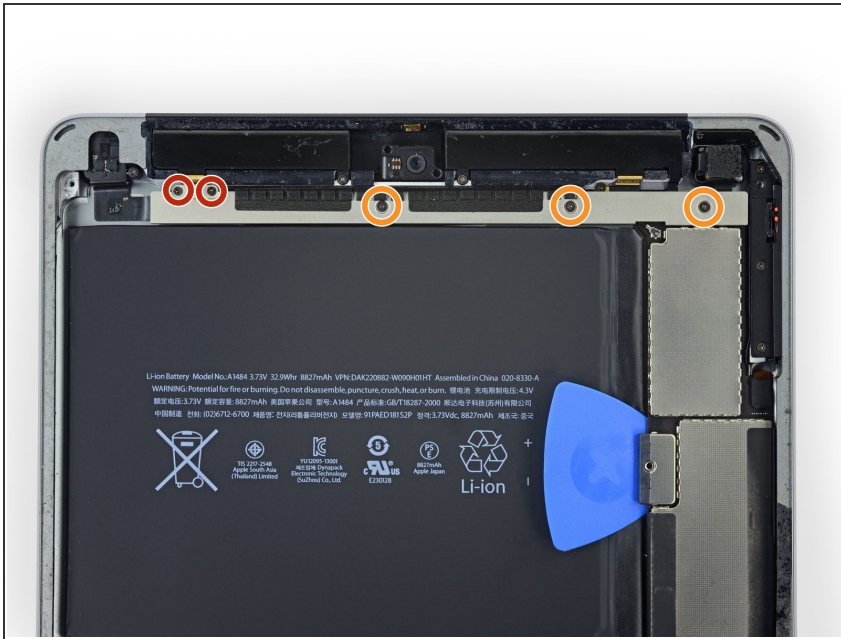

prereq for everything upper case

## TOOLS:

- [Tweezers](#) (1)
  - [iFixit Opening Picks set of 6](#) (1)
  - [Phillips #00 Screwdriver](#) (1)
-

## Step 1 — Upper Component Cable Bracket

- Remove the following screws securing the upper component cable bracket:
  - Two 2.0 mm Phillips screws
  - Three 1.4 mm Phillips screws

## Step 2

- Use tweezers to start peeling back the tape securing the upper component cable bracket.

## Step 3

- Slowly peel the upper component cable bracket up out of the iPad—leaving the tape pieces on the bracket to make it easier to reinstall.

To reassemble your device, follow these instructions in reverse order.
