

iPad Mini CDMA Antenna Cable Tape Replacement

Prereq for removing the two lower antennas.

Written By: Andrew Optimus Goldheart

INTRODUCTION

Prereq for removing the two lower antennas.

TOOLS:

- **Spudger** (1)

Step 1 — Antenna Cable Tape

- Use the tip of a spudger to peel back the small piece of tape covering both antenna cables located near the bottom right corner of the iPad.
- ⚠ Leave the lower part of the tape stuck to the back of the rear case to aid in reassembly.

Step 2

- With the tip of a spudger, peel up the larger piece of tape covering both antenna cables near the bottom of the rear case.
- ⚠ Do not try to remove this piece of tape; it is wrapped around the top antenna cable.

To reassemble your device, follow these instructions in reverse order.
