

# iPad Mini CDMA Speakers Replacement

Prereq for removing the logic board. Battery is out.

Written By: Walter Galan

## INTRODUCTION

Prereq for removing the logic board. Battery is out.

### TOOLS:

- [Spudger](#) (1)
- [Phillips #00 Screwdriver](#) (1)

## Step 1 — Speakers

- Remove two 1.4 mm #00 Phillips screws securing the left and right speakers to the rear case.

## Step 2

- Insert the tip of a spudger into the gap between the left speaker and the bottom left side of the rear case.
- Pry around the bottom of the speaker, sliding it out from its recess in the rear case.

## Step 3

- Once enough of the speaker is exposed, grasp it and pull it away from its recess in the rear case.
- Remove the left speaker from the iPad.

## Step 4

- Use the tip of a spudger to slide the right speaker slightly toward the outside of the iPad.

## Step 5

- Insert the tip of a spudger into the gap between the right speaker and the bottom right corner of the case.
- Pry the speaker out from its recess in the rear case.

## Step 6

- Once enough of the speaker is exposed, grasp it and pull it away from its slot in the rear case.
- Remove the right speaker from the iPad.

## Step 7

- Remove two 2.8 mm Phillips #00 screws from the base of the Lightning connector.

To reassemble your device, follow these instructions in reverse order.
