

iPhone 4S how to take out a sim card Replacement

you can replace the sim by the end and still have all the same stuff on it.

Written By: jack

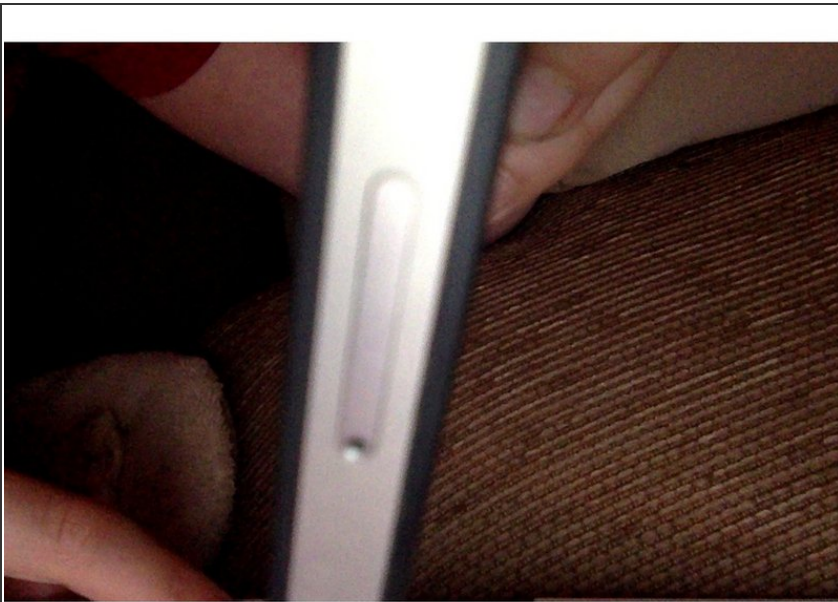

TOOLS:

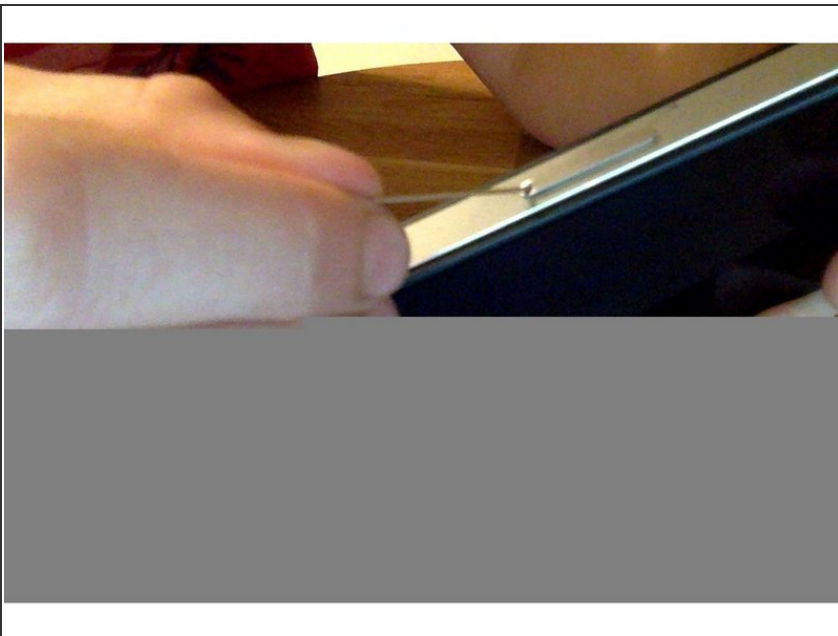

- [a pin or needle](#) (1)
-

Step 1 — how to fit a sim in an iPhone 4s

- this is the sim card holder and the dot is where you put the pin or needle

Step 2

- then if you pop it with a pin it should pop out of its slot a bit

Step 3

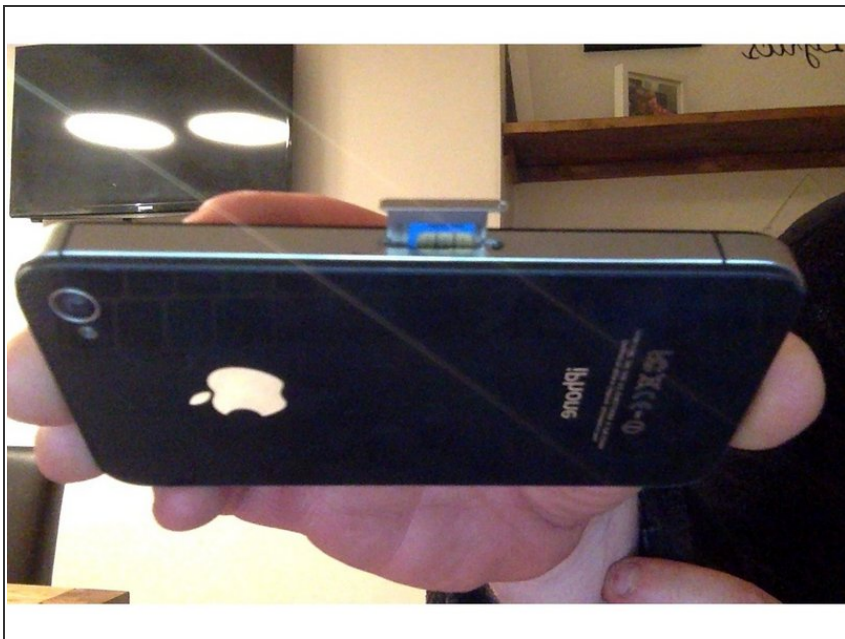

- Then it should look like this once you have taken it out

Step 4

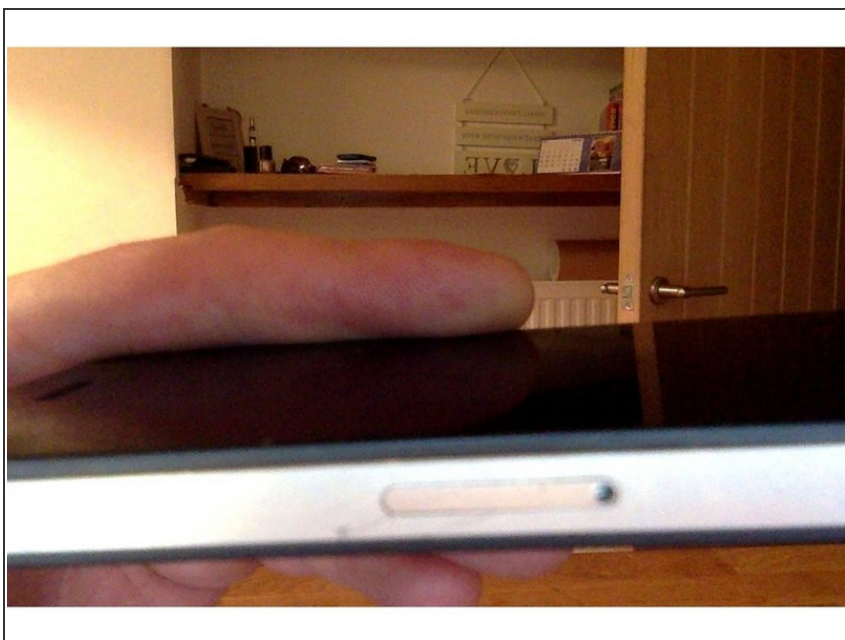

- Then put the sim back in the holder.

Step 5

- Then place it in the iPhone 4s again

Step 6

- Then push it back in as the same picture as i did at the start and your finishes

To reassemble your device, follow these instructions in reverse order.
