

# iPhone 6 Plus Logic Board Assembly Replacement

Prereq only.

Written By: Walter Galan

---

# INTRODUCTION

Prereq only.

## TOOLS:

- [Phillips #000 Screwdriver](#) (1)
  - [Tweezers](#) (1)
-

## Step 1 — Logic Board Assembly

- Remove the single 2.8 mm Phillips #00 screw securing the plastic clip to the logic board.

## Step 2

- Remove the single 1.3 mm Phillips #00 screw recessed against the top of the rear case.

## Step 3

- Use a pair of tweezers to firmly grasp the plastic clip and remove it from the iPhone.

## Step 4

- Remove the single 1.6 mm Phillips #00 screw securing the antenna clip to the rear case.

## Step 5

- Carefully grasp the antenna clip with a pair of tweezers and remove it from the iPhone.

To reassemble your device, follow these instructions in reverse order.
