iRobot Roomba 655 Pet Series Battery Replacement

How to replace your battery on your Roomba.

Written By: Matt Davis

INTRODUCTION

Removing the battery is an important step because it takes away the power from the device so you don't harm any of the other components. It should be one of the first things you should do.
TOOLS:

- Phillips #2 Screwdriver (1)

PARTS:

- iRobot Roomba Replacement Battery for Select 500, 600, 700, 800, and 900 Series (1)

Step 1 — Removing the Side Brush

- Flip the device over onto its back.

- Find the side brush, and unscrew the single screw that connects to brush motor by using the Phillips head #2 screwdriver.

- *This screw doesn't completely come out of the yellow side brush.*

Step 2 — Removing the Back Panel

- Using a Phillips #1 screwdriver, remove the four screws on the back panel.

- Once the screws are loose gently pry the back plate away from the body by using the spudger tool.

- *The screws don't completely come out of the panel, but it will still come apart once unscrewed.*

Step 3 — Removing the Battery

- Grab the two pieces of green tape with your thumb and index finger

- Pull up on the battery in an upwards direction to remove it

Step 4 — Battery Contact Points

- These are the contact points on the Roomba for the battery

- These are the contact points on the battery

- ⓘ If these contact points are dirty, they can be cleaned with a moist microfiber cloth (distilled water recommended)

To reassemble your device, follow these instructions in reverse order.
