iRobot Roomba 805 Filter Replacement

How to replace the filter in an iRobot Roomba 805.

Written By: Grady Landers

INTRODUCTION

This guide will go over how to clean or replace the filter in your iRobot Roomba 805. If you plan on replacing the filter you can get a new one from iRobot. No tools are needed to follow this guide.
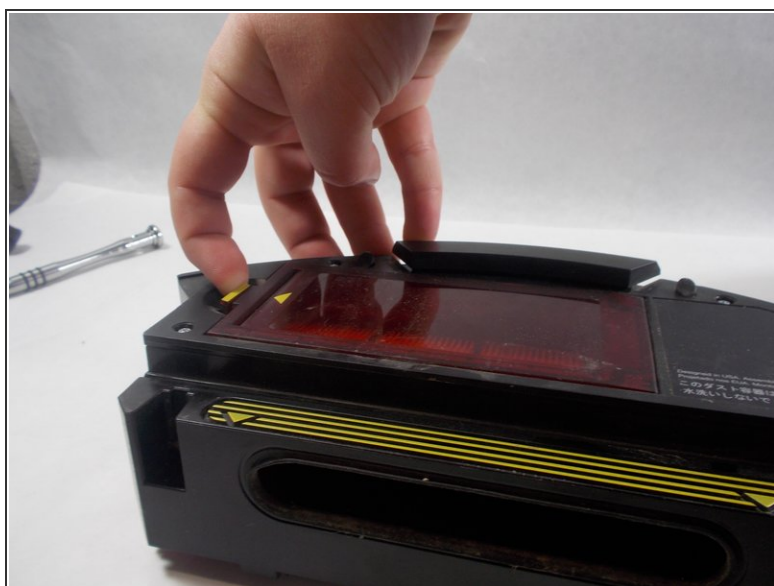

⚙ PARTS:

- Roomba Filter (1)

This document was generated on 2020-03-23 06:30:24 PM (MST).
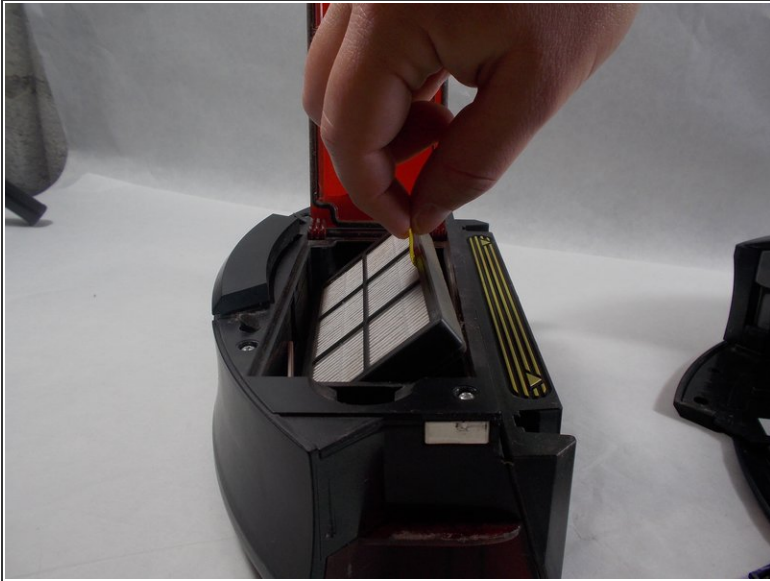

Step 1 — Filter

- At the back of the Roomba, squeeze the release latch.

- Firmly pull upwards to remove the filter bay.

Step 2

- Push in the lever and pull open the filter door.

Step 3

- Grab the filter by the pull tag and remove it from the filter bay.

- Now you can clean the filter and the filter bay or replace the filter with a new one.

To reassemble your device, follow these instructions in reverse order.
