

# iRobot Roomba 805 Roller Brush Replacement

How to replace the roller brushes in an iRobot Roomba 805.

Written By: Grady Landers

## INTRODUCTION

This guide will go over how to clean or replace the roller brushes in your iRobot Roomba 805. If you plan on replacing the roller brushes you can get a new one from iRobot. No tools are needed to follow this guide.

### PARTS:

- [Roomba Rolling Brush Set](#) (1)
-

## Step 1 — Roller Brush

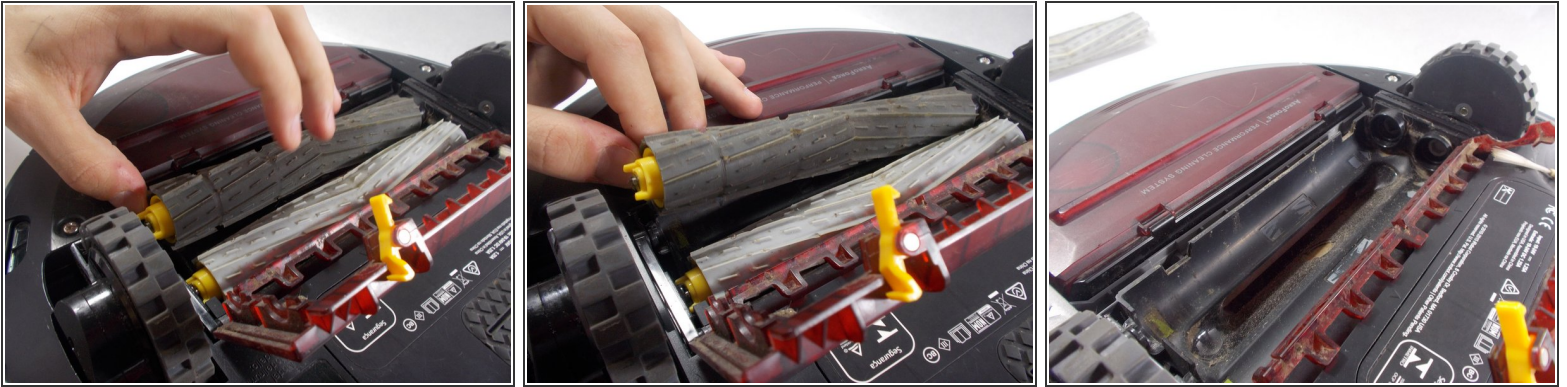

- Start by squeezing the yellow levers on either side of the roller brush cage.

## Step 2

- Pull up to unhinge the roller brush cage.

## Step 3

- From the right side, push in and up to remove each roller.
- Remove any stuck debris or replace with new clean rollers.

To reassemble your device, follow these instructions in reverse order.
