INTRODUCTION

This guide will walk you through the required steps to replace the roomba battery. Including all required tools and a link for the replacement battery.

🔧 TOOLS:
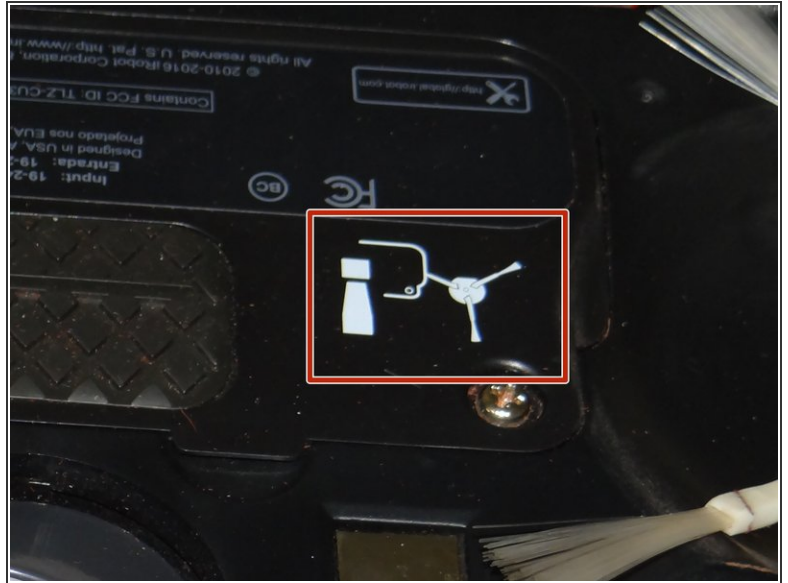

- Phillips #2 Screwdriver (1)

⚙ PARTS:

- Roomba 1800 Li-ion Battery (1)

Li-ion 1800

Step 1 — Battery

- Start by flipping your Roomba onto its back on a flat surface.

- 📌 Be sure not to close the side brush bristles in the battery door during reassembly as shown by the handy warning in the second photo.

Step 2

- Unscrew both the 11mm Phillips #2 screws from the battery cover and remove cover from the Roomba.

- ⓘ *These captive screws are not intended to be removed from the cover.*

Step 3

- Grasp the tabs on either side of the battery.

- Remove the battery by pulling up on the tabs.

- While you're here, check the battery contacts for corrosion or debris.

To reassemble your device, follow these instructions in reverse order.
