iRobot Roomba 960 Filter Replacement

iRobot Roomba 960 Filter Replacement Guide.

Written By: Vanessa Greyson

INTRODUCTION

This guide will instruct you how to replace a filter in the iRobot Roomba 960. Filters should be replaced often with frequent use.

⚙ PARTS:

- AeroForce® High-Efficiency Filters (1)

Step 1 — Filter

- Orient the Roomba so that the device is on its wheels and the words can be read from left to right.

Step 2

- Press the large button on the Roomba that is located closest to you.

- Pull to remove the dust bin.

Step 3

- With the dust bin completely detached from the Roomba, press the tab that is located on your right (there is a yellow arrow pointing to it).

- Lift the red plastic cover to access the filter.

Step 4

- Using the yellow ribbon that is located at the top of the filter, pull it towards you.

- Carefully remove the used filter.

To reassemble your device, follow these instructions in reverse order.
