

# iRobot Roomba 960 Side-Brush Replacement

iRobot Roomba 960 Side-Brush Replacement Guide.

Written By: Romulo Duarte

## INTRODUCTION

This guide will instruct you how to replace a filter in the iRobot Roomba 960. Side-Brush should be replaced often with frequent use.

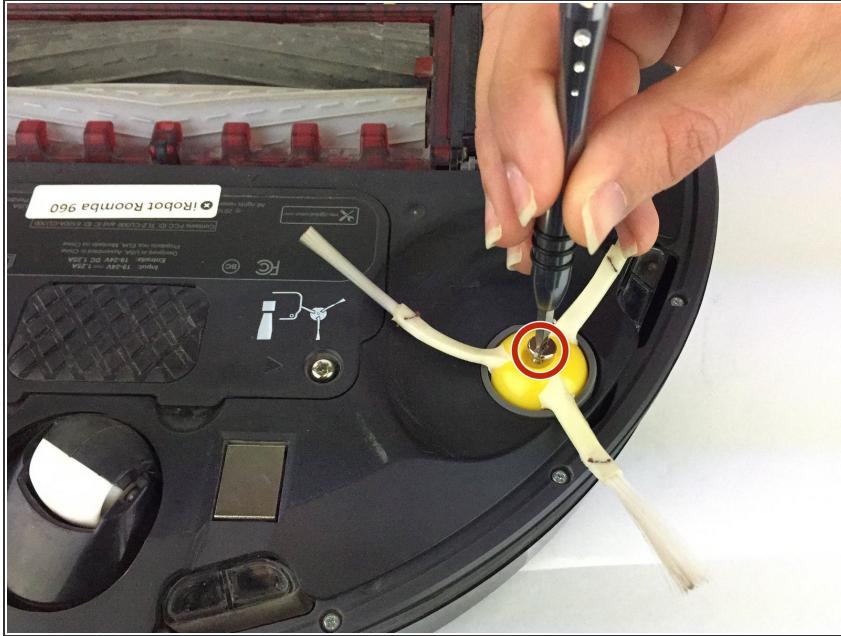

### **TOOLS:**

- Flathead 3/32" or 2.5 mm Screwdriver (1)

### **PARTS:**

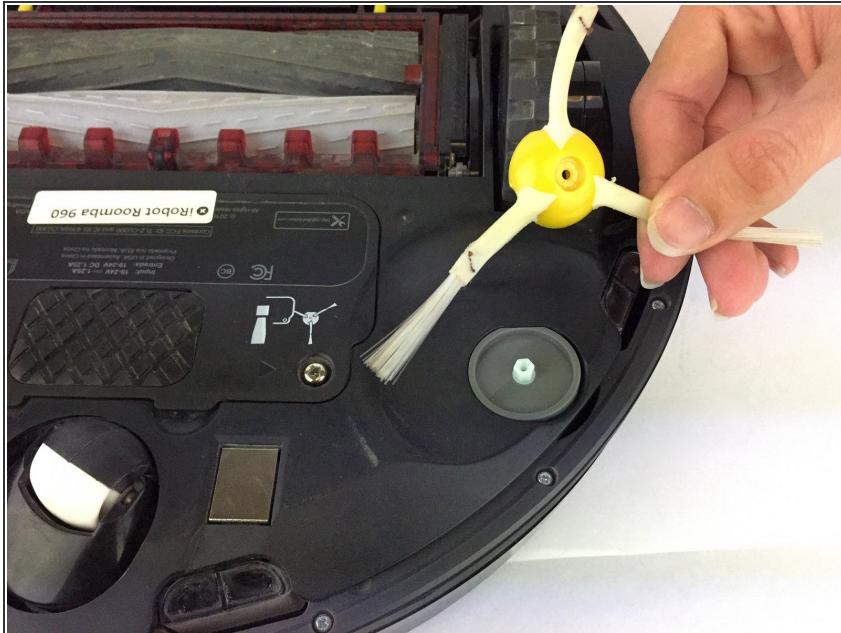

- Roomba 800 and 900 Series Side Brush (1)

## Step 1 — Side-Brush

- With the Flathead 2.5mm screwdriver remove the 7.9mm screw from the side-brush.

## Step 2

- Pull the side-brush towards you.
- Carefully remove the side-brush.

To reassemble your device, follow these instructions in reverse order.
