

# rear spoiler reduction

The rear spoiler is removed.

Written By: Leonard Kesting

# INTRODUCTION

It will remove the rear spoiler and NEN little tip's still on top.

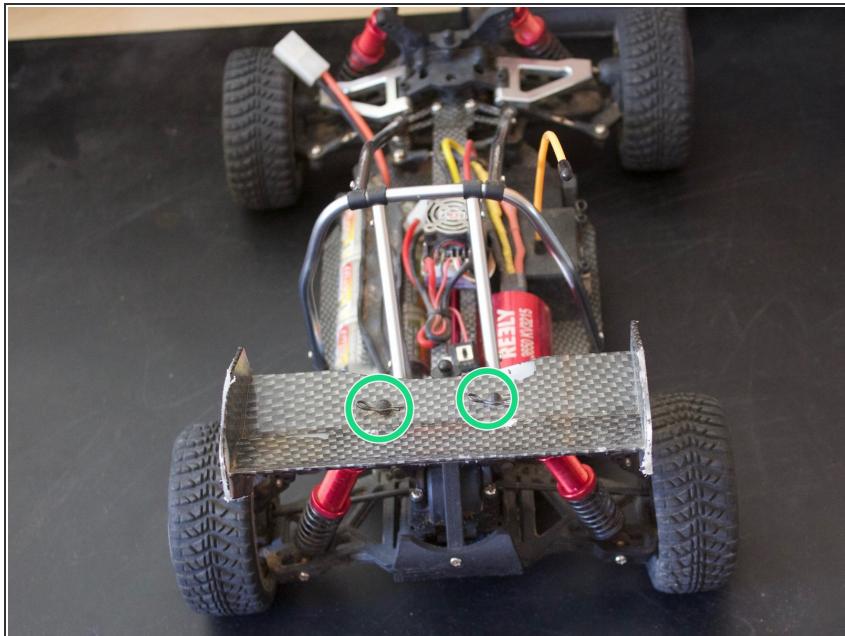

## PARTS:

- **New Item (1)**

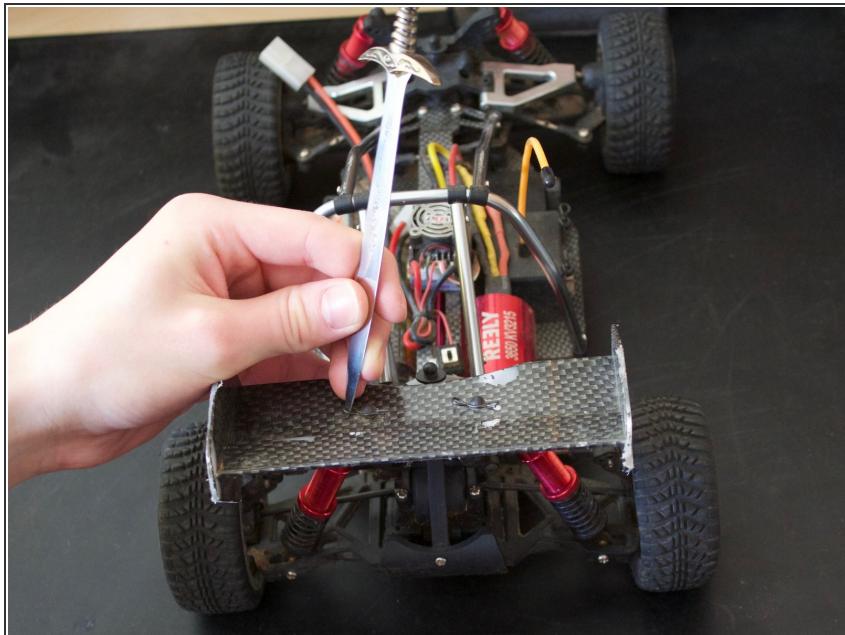

*falls gebrochen oder verloren*

## Step 1 — rear spoiler reduction

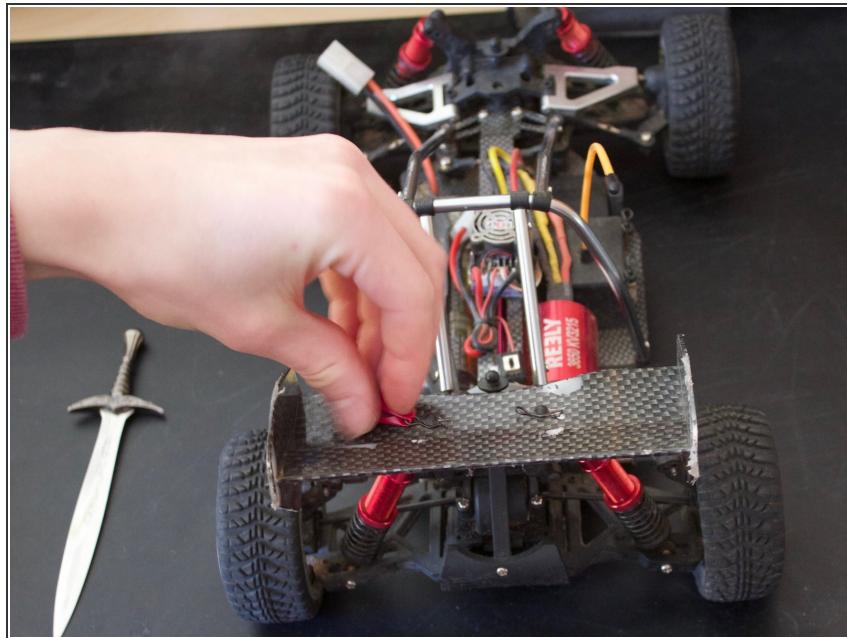

- These two pins must be removed

## Step 2

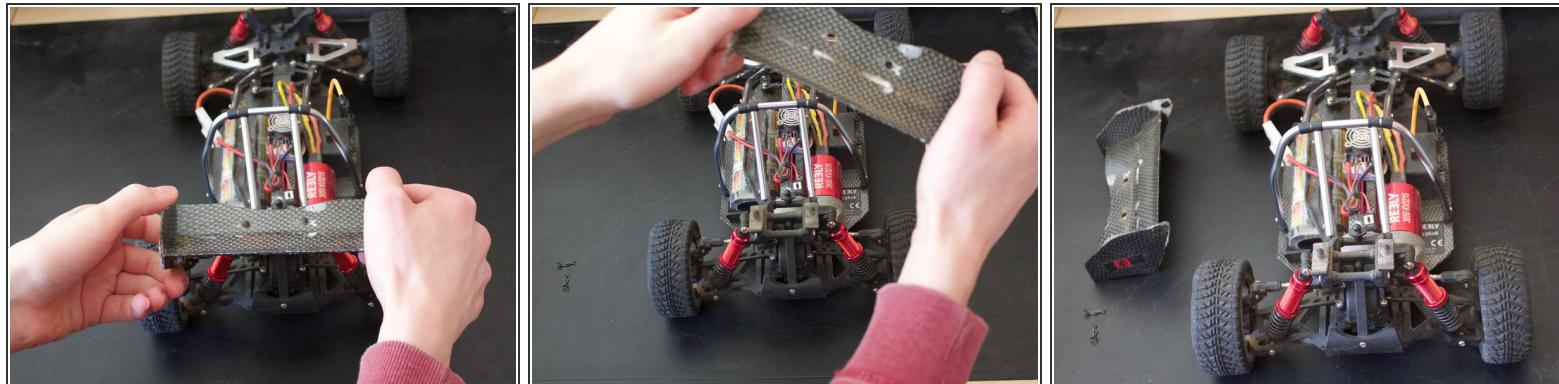

- To remove a screwdriver or other thin, stable object is helpful (pictured: letter opener)

## Step 3

**TIP:** If the component is often removed (for example, for thorough cleaning), it is helpful to provide the splints with some insulating tape, so tools are unnecessary

## Step 4

- After that, the spoiler can be removed upwards

Repeat the steps in reverse order to reassemble your device.
