# the Battery Replacement

This is a simple guide to replace the battery on your HTC TouchPro.

Written By: Tyler

# INTRODUCTION

Before attempting to remove the phone's battery, make sure the phone is off. If the won't won't turn off, make sure to use caution when removing the battery.

## 🔧 TOOLS:

- iFixit Opening Tools (1)

## Step 1 — Battery

- This is the back of the phone.

- Using your other eight fingers to cradle the phone, place each thumb on either side of the "Alltell" symbol.

- Apply pressure towards your fingers, and then towards the top of the phone in a single movement.

## Step 2

- After the cover stops moving forward, remove it by lifting the cover away from the phone.

- In this photo, you will see the cover being removed from front to back. The cover can also be removed by lifting it straight back.
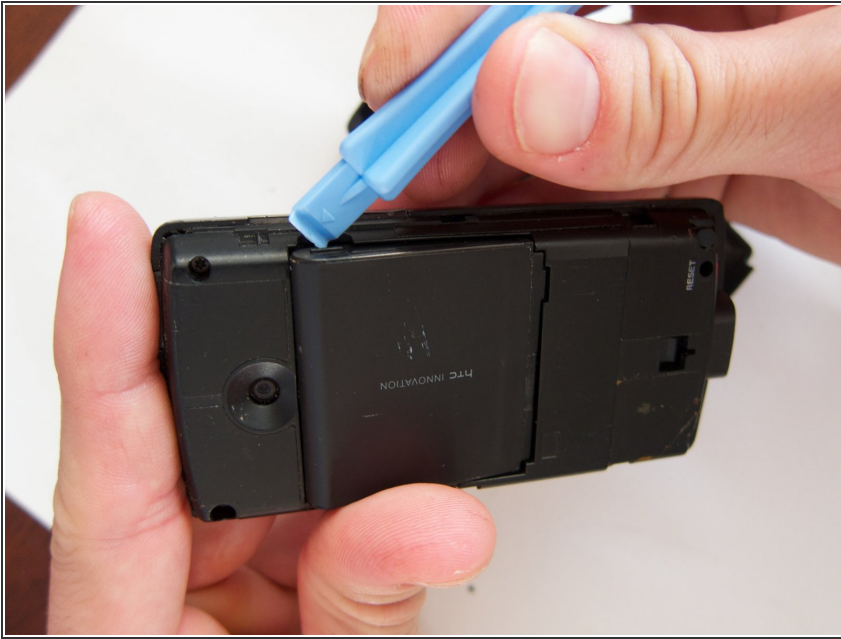

## Step 3

- Simple photo of the back of the phone with the rear cover off.

## Step 4

- The small notch area is where the pressure to remove the battery will be applied.

## Step 5

- To remove the battery, firmly hold the phone in one hand.

- Using a finger, or in this case a plastic pry bar, apply pressure to this location, and pull battery back towards you.
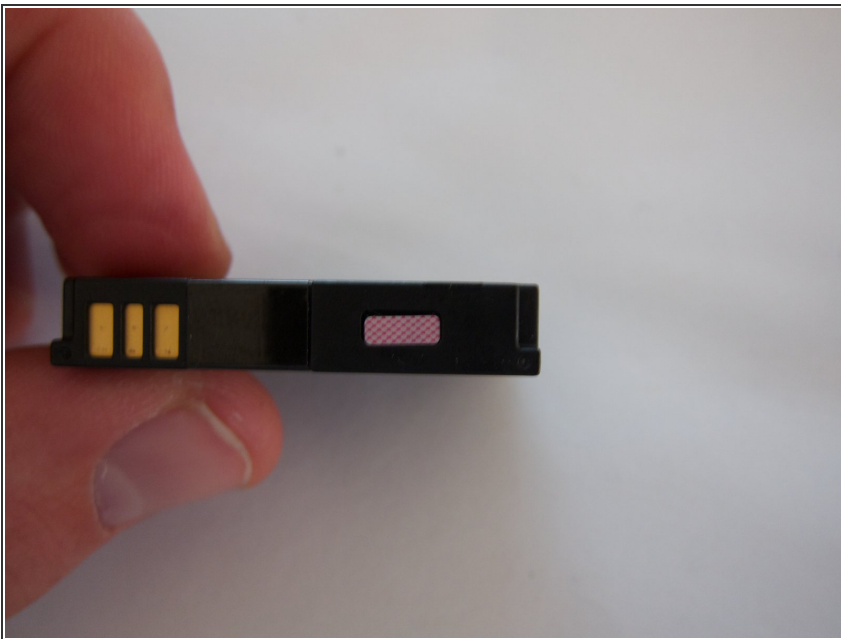

## Step 6

- Be careful when removing the battery. If it comes in contact with any liquid, the battery can be ruined.

- Simply lift the battery out of the battery tray.

## Step 7

- Clockwise from the top: The removed battery, the rear cover, and the phone.

## Step 8

- If the battery is not working properly, water damage might be the culprit.

- The small box on the right contains a white background with red hashes on top.

- If the lines are sharp, there has been no forms of water damage.

- If lines are blurry, or the background is pinkish, the has been water damage.

To reassemble your device, follow these instructions in reverse order.
