No part of this document may be reproduced in any form by any means without prior written authorization of Alteon Networks. Documentation is provided "as is" without warranty of any kind, either express or implied, including any kind of implied or express warranty of non-infringement or the implied warranties of merchantability or fitness for a particular purpose.

**U.S. Government End Users:** This document is provided with a "commercial item" as defined by FAR 2.101 (Oct 1995) and contains "commercial technical data" and "commercial software documentation" as those terms are used in FAR 12.211-12.212 (Oct 1995). Government End Users are authorized to use this documentation only in accordance with those rights and restrictions set forth herein, consistent with FAR 12.211-12.212 (Oct 1995), DFARS 227.7202 (JUN 1995) and DFARS 252.227-7015 (Nov 1995).

Alteon Networks, Inc. reserves the right to change any products described herein at any time, and without notice. Alteon Networks assumes no responsibility or liability arising from the use of products described herein, except as expressly agreed to in writing by Alteon Networks, Inc. The use and purchase of this product does not convey a license under any patent rights, trademark rights, or any other intellectual property rights of Alteon Networks, Inc.

ACEdirector<sup>TM</sup> 2 is a trademark of Alteon Networks in the United States and other countries.

### **Regulatory Compliance**

**FCC Class A Notice:** This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: 1. This device may not cause harmful interference. 2. This device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

### **Do not make mechanical or electrical modifications to the equipment.**

**VCCI Class 1:** The equipment is Type 1 Data Processing Equipment and is intended for use in commercial and industrial districts. It has been tested and found to comply with VCCI technical requirements for the purpose of protection against electronic interference. When used in residential districts or their peripheral areas, radio, and TV receiver units may be subject to radio interference. The operation should be done in accordance with the Instruction Manual.

**CE Notice:** The CE mark on this equipment indicates that this equipment meets or exceeds the following technical standards: EN50082-1, EN55022, EN60555-2, EN61000-4-1, EN61000-4-2, EN61000-4-3, EN61000-4-4, and EN61000-4-5.

**Safety Information is included in the *ACEdirector 2 Installation and User's Guide*.**

# ACElerate Layer 4 Switching Software is Pre-Enabled

---

Thank you for purchasing the ACEdirector 2. This switch has built-in ACElerate Layer 4 Switching Software which features the following:

- Server Load Balancing
- Application Redirection

Since the ACElerate software has been *pre-enabled* at the factory, you are not required to enter a software key password, as is otherwise necessary when the software is purchased separately.

Server Load Balancing and Application Redirection are ready for configuration and use as described in your *ACElerate Switch Software User's Guide*.

---
