Regulatory Compliance

FCC Class A Notice: This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: 1. This device may not cause harmful interference. 2. This device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

Do not make mechanical or electrical modifications to the equipment.

VCCI Class 1: The equipment is Type 1 Data Processing Equipment and is intended for use in commercial and industrial districts. It has been tested and found to comply with VCCI technical requirements for the purpose of protection against electronic interference. When used in residential districts or their peripheral areas, radio, and TV receiver units may be subject to radio interference. The operation should be done in accordance with the Instruction Manual.

CE Notice: The CE mark on this equipment indicates that this equipment meets or exceeds the following technical standards: EN50082-1, EN55022, EN60555-2, EN61000-4-1, EN61000-4-2, EN61000-4-3, EN61000-4-4, and EN61000-4-5.

Safety Information is included in the *Alteon AD3 Hardware Installation Guide*.

Release Notes

These release notes provide the latest information regarding your Alteon AD3 with WebOS software. This supplement modifies information found in the complete documentation:

- *WebOS Release 5.2 User's Guide* (part number 050044, Revision B)
- *WebOS 6.0 Release Supplement* (part number 050056, Revision B)
- *Alteon AD3 Hardware Installation Guide* (part number 050047, Revision A)

Please keep this information with your Alteon WebSystems product manuals.

Console Cable

The switch console port accepts a standard straight-through serial cable with a male DB9 connector. For wiring specifications, see your *Alteon AD3 Hardware Installation Guide*.

Console cables are not intended for permanent installation and should be disconnected from the console port after configuring the switch.
